An introduction by James Telling:

For the reader's reference, I asked the publishers to include main sections from the second edition of Dean Smith's first book, "Hence All Terr." This represents the foundation material of his speeches and talks during the early HAT Wearer days of 1991-96. Chapters one through nine are pre-1992 U.S.A. elections, original first edition material. Chapters ten to end include references to later events written in editions subsequent to the first edition.

Some updates and a few concepts I and others suggested to Dean and written in his later detailed books expanding on "Hence All Terr" have been included, such as discussions of Japan as a model for the mature United States of the World and the value of learning the art of acting. Comments on the 1992 presidential election have also been added. And of course "HAT Activists" has been changed to "HAT Wearers."

This condensed version is from the Spanish second edition that Dean himself translated from the original English first edition. A few changes in words and phraseology have been made to reflect modern Spanish usage, but I believe there have been no substantial changes in the original meanings. In chapters six to the end English words are inversely substituted for Spanish words.

Casual readers and those who have already read "Hence All Terr" may proceed to the fourth book, "Striving."

America and Americanism wends on in its perpetual deep slumber. We will awaken and we will act. We'll feel groggy at first, and want to nestle our heavy heads back into the beckoning soft pillow of conformity. Henceforth we will tire, but until all clamber up the heavenly terraces, we will not yet grow weary...

As the glowing Earth spun through the endless dimensions of the galaxies, in an inspired and symphonic kenosis... God created on our blessed planet... humankind. Our evolution was the final episode starting both a moment and an eternity before... germinated from the root of matter and spirit - the atom... the atomic block, a miniature facsimile both of the heavens, and of the human condition... a positive, a negative, and a neutral charge - and a residual, explainable binding force.

Thus we are born, we mingle and mix... we enjoy life's caressing Chimes of Freedom and curse its plundering Bells of Rhymney... then in a common language we feel fate's hand and we perish and proceed into another plane... the blessed are reborn into heaven and the damned are resigned to perdition. OUR CONDUCT DURING THIS INSTANTANEOUS AND FLEETING EARTHLY EXISTENCE INFLUENCES THE DETERMINATION OF, BUT DOES NOT COMPLETELY DECIDE, WHETHER WE ALIGHT TO THE ABOVE OR GROPE OUR WAY TO THE BELOW.

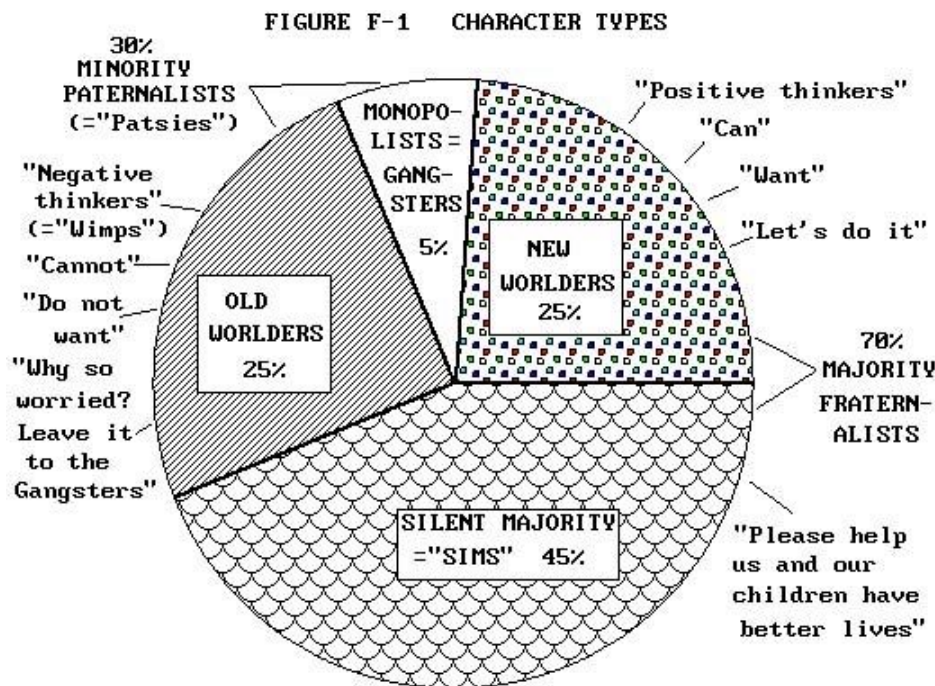

Above the starry heavens God is locked in an eternal battle with the Prince of Darkness - satan. God heroically and fairly struggles for hope and propriety, the cheating satan lusts for blood and greed... God for progression, satan for regression... God for abundance, satan for profligacy... God for happy, satan for misery. When we allow ourselves to be drawn to God's side and embrace we enhance our heavenly chances. When we abide and kiss satan the probabilities of descending into the abyss are multiplied. God needs our help, satan has received too much aid already. Positive and negative fight on. In the atom we find hAtom, the explanations of matter, society, the universe, and Heaven and hell.

We are both in the middle of and at the beginning of an amazing journey. Humankind has struggled through the ages against the darkness-inspired insidious forces of selfish mammonism, and the lulling sadomasochistic enjoyment of deprivation and suffering. As created we began as one nascent tribe. We mixed, multiplied and scattered 'round the Earth and formed many separate communities. These tribes evolved into what we now call "civilizations," "nationalities," and "cultures," and "races."

In many ways and with varying degrees of success these artificially

diverse bits-and-colors civilizations did battle with and defeated the forces of darkness, allowing progression to modern civilization. Some victorious ones, such as the United States, the Western European countries and Japan, have become rich and free. Others, such as Red China and many of the Middle East countries and all the poor downtrodden forgotten lands, have submitted to fescennine forces and languish in repression and penury. We must face reality. Race, religion, customs and traditions, and history have had minimal effect on the ability of a tribe/civilization to progress. What has mattered are the strength, desire, and conduct of a certain heroic segment of the tribe to recognize and impede the greed of the gangster segment, and to sideswipe the sadomasochistic desires of another "miserables" segment of their tribe.

See FIGURE F-1 "Character Types." In backward and "old worldish" civilization, the greedy segment, the FIVE PERCENT "MONOPOLISTS," or more accurately the "Gangsters," seize power and riches and then do everything necessary to maintain the power and wealth. Wut (what) I hereafter term "blue collar Gangsters" are the physically violent mafia-types we read about every day. They pose only a marginal nuisance, in a tiny amount provide society cube mucilage, and distract us from the real problem - the "white collar Gangsters." Wut I term white collar Gangsters are the much more numerous currently "socially acceptable" (but in reality (almost) subhuman), ill-gotten profiting, world-rotting

five percent amorphous horse forms. They are mucky cankers which must shuck monopoly and be converted... or be collared. Those who help the buck-sucking, whip-cracking white collar Gangsters the most, the lucky and eager next generation Gangsters, inherit the power and riches and support of the miserable darkness-loving Old Worlders. History texts instruct us as a plain fact Gangsters usufruct, thrive, and multiply in conditions of backwardness, information dearth, traditional restraints, conform-conduct, and cowardice. Simply, they feed on "Old Worldism." Here is an example from the book "Tell The World What Happened In China and Why," by Liu Binyan:

(Note: I will mark my own clarifications and comments within quoted sections with brackets - e.g. [in Red China] and [1989] are my words not Binyan's).

In any small town [in Red China], people could see the most influential, comfortable, and profitable positions all occupied by children of leaders. When workers and ordinary office clerks could not find housing after years of waiting, some officials could obtain new apartments or houses without using them. They could even rent or sell them to make a profit.

In many towns and cities, children of officials could rape women without being punished by law. Officials used their power or connections to cover up for criminals, so they would not be punished. Or they would persecute those who dared to expose their criminal activities, so that they would not be rehabilitated for a long time. Economic crimes and illegal racketeering could be seen in almost all towns and cities.

Since the early 1980s, it has been widely known throughout China that children of high-ranking officials have bank accounts in other countries. They are said to have kept money from the foreign trade that they monopolized, so that they could use it when needed. In counties that could survive only on government subsidies, officials used public funds to buy imported cars, or embezzled funds set aside for disaster relief to build office buildings and private apartments.

So, starting in July [1989], there have been more and more reports in the official newspapers about penalizing corrupt officials. It almost seemed as if the Communist Party was going to do something "real" this time.

But the Chinese rank-and-file want to see if the sons and daughters of high-ranking officials will be penalized. "What happens to Deng's son and son-in-law?" "What happens to Wang Zhen's son?" "And where are the three sons of Bo Yibo?" "You will really dare to touch Peng Zhen's son and daughter?" They also want to see how the Gang of the Old deal with the big bank accounts of the high-ranking officials and their children.

The Gangsters and child-Gangsters are aided and abetted by the second segment of civilization, the contrarious, TWENTY-FIVE PERCENT "OLD WORLDERS," or "negative thinkers." These miserables enjoy poverty and hand-wringing, desire spiritual mire, look forward to terror and war, are corpulent and heavy in mind if not in body condition, and bow down to and build up suffocating, blinding, and binding conformist tradition. They think, often subconsciously, "all misery is natural and good." They not only enjoy watching others suffer but also actually pour drugs into their own soul-wounds to enhance and enjoy more their own misery. They apply bandages to the festering wound not to cure - but rather to endure.

The Old Worlders lickspittle an' play salugi with the Gangsters. They prey on the good-naturedness of the Majority in their efforts to impose bad-naturedness. They coerce to enforce an' maintain the Monopoly-fed Monopolist-led plutocracy. Since progress means the end of joyously painful Gangster bully leadership and the lessening of the enjoyment of tear flows, those quarks and electrons magnetically attract and complement each other. These two segments of the Minority join to cling to remnants of, and yearn to ultimately return to, the carious disease-ridden impoverished yellowing-pages emperor-ruled dark ages.

Who, specifically, are the Old Worlders? We need not point fingers nor beat down the furze searching out these. Their ranks include some from, but are not inclusive of, those ranging from the downcast traipsing the cracking sidewalks to the movie-casters parading the black limousines. Only they are sure of whom they are, we can only conjecture. Evil is oll aroun' and within. Oll of us have some sadomasochistic "if we ended poverty I couldn't enjoy feeling sorry for others, I couldn't enjoy being felt sorry for" proclivities. We oll have at least a little dark, brain-deadening sexual preoccupation, desire to shoot rabbits just for the enjoyment of killing side in us. But they are most vividly distinguished by their ability to blandly niggle, but unwillingness to proffer any realistic solutions - other than random, liberty-limiting freedom-reducing bandaging Gangster-empowering "make a law against it," "spend more (taxpayers') money on it" altruist-paternalistic ones.

Ever throwing shadows and blowing smokescreens, in most cases they profess verbally a desire for societal advancement (a delectable pupu for a main course that never comes). But as always mere undocumented unfounded listless utterances are meaningless. IN THEIR HEART OF HEARTS, IN THEIR DREAMS AND VISIONS, AS THESE WIMPISH ONES LIE LIMP AND AWAKE IN BED AT NIGHT... THE OLD WORLDERS WHIMPER THEIR DESIRES TO RETURN TO "FULLER, MORE 'IN TOUCH WITH FEELINGS'" TIMES - TO FEUDALISM THEN TRIBALISM. Yes, if these vice-loving champions of duplicity are left to their devices, they will enthrone an "American" king, they will bring back rule of the sword samurai feudalism, they will seek dominance of the Middle Kingdom, and they will erect new castles on the Rhine. They will hand over absolute authority to their satan-lover on Earth "God On

Earth" Godfather Emperor... and suckle close-eyed at the breast of pilloried suffocating tortuous paternalism.

Kings and mafia dons thrive on and adorn the dark, thumping heart of all social evil - monopoly profit. These blasphemous God-pretenders have always and will always enjoy their lives of Status Quo absolute-control-gained sumptuous luxury, while denying any responsibility for the rapine raping activities of their legions of underling overlord lieges. These princes lief indulge in their super-ego and super-excesses, and leave the Majority leaves grieving, the royals saying "be damned with all who will not submit to me, feed me, and drape glory on my "uniquely unique" crown and on the horns of my supporting eunuch elite."

We must beseech... the one and only true God above the stars... to give us guidance... so THAT we might help Him to force these ultimate tools and symbols of the dark, thumping heart to lay down their thorny crowns.

The monopolist Gangsters and miserable Old Worlders are grouped together and referred to as the 30% "Minority," or "Paternalists" ("Patsies" for short), or "Blindganger." THE FINAL VICTORY OF OLD WORLDISM WILL EQUAL THE FINAL VICTORY OF THE MISERABLES, GANGSTERS AND CHILD-GANGSTERS, IN CHINA, IN THE U.S.A., IN GERMANY, IN JAPAN AND EVERYWHERE, AND THE CROWNING OF THE "MIDDLE KINGDOM EMPEROR." It will be the done final victory of the Prince of Darkness himself - satan. I'm sure you've often witnessed and read about cruelty and pondered "how can people do these things to other people?" Now you know - the perpetrators are the sadomasochistic, misery-loving Patsies.

Christianity preaches as a rudiment we all are low sinners; HAT teaches only about half of us are fundamentally so.

Please listen to me closely, I'll not shout... we must act quickly because the Paternalists are taking us down the road of complete ruination of Americanism and of Earth and all that wander and wonder on its surface. Clinging to mammonism and protecting paternalism, "other peoples are different" tribalism/ nationalism, and gracing of racism is not only resulting in the starvation of millions of children worldwide and the impoverishment of millions of children in America now as I talk with you... but it is also fueling the armament of many nations with weapons of mass destruction. Some say advancing technology means soon nuclear weapons will be as commonplace as jet aircraft are today. This day's threats against the U.S.A. and Americanism by gangster dictators will be tomorrow's threats carried out.

THE WORST ENEMIES OF NEW WORLD PROGRESSIVE SOCIETY ARE THOSE WHO SAY "WE HAVE A DIFFERENT HISTORY AND DIFFERENT CULTURE. AMERICANISM (NEW WORLDISM) CANNOT HELP US." They are really saying, "we want to continue to enjoy the sufferings of our society's (and America's) little dark ages." It's rot I'd like to stop. 'Tis a spinning coin, flashing the two sides of superiority and inferiority complex. But, there are no "superior" or "inferior." In our past history we've all shared a common

misery of having paged through dark ages. We've all been burned before. But those who chose Americanism pulled themselves and their children out of the trap. They made the correct choice, but they are not superior. The true dichotomy is correct/ incorrect, New/Old, not superior/ inferior.

History instructs us, it does not bind us. Mixing means progress, isolation means atrophy. Ask those numb-brained Old Worlders who say "different" what they think can help them. In disgust, for they do not really want help, they will turn their eyes downward and mumble tribalist/ nationalist platitudes, "just leave us alone, you cannot understand the nuances of our culture and our way of thinking." Unfortunately we then not only leave alone the bumlbers, but we also stand aside from the young and youngish leaves who are reaching out to us. We will fully enjoy "nuances" in the colorful culture-creating culture-sharing/ mixing starry New World. But we will not allow the mumlbers to use "nuances" as fuel for truculency.

Besides the lure of gradual relapse and descent into Old World dark ages, the other threat is the rise of a tribalist-nationalist-racist "master race" "Middle Kingdom" nation to worldwide ascendancy. There are several candidate countries, including the U.S.A. after a white backlash against reverse discrimination. Nazi-like, this New/Old World movement will be led by a core group espousing "we will no longer give in to those who cannot discipline and push themselves to pull themselves up. Let the plum superior be the masters and the dumb inferior who are ruining everything succumb to the natural social Darwinism laws of survival of the fittest. The Emperor is the symbol, he and his sycophants will breed the master race." If the old worldishist segment of the New Worlders defeat the new worldishist segment of the New Worlders, this disgrace will be the amiss result.

The third and largest segment of civilization is the FORTY-FIVE PERCENT complaisant "SILENT MAJORITY," for short the "SIMS." The mobs of people of this biggest and most precious pie slice want to enjoy their everyday family life, the wonders of nature, the tinkling of the piano, tactile and sensory stimulations, and productive, satisfying jobs. They live and want to live the lives - free, unencumbered, healthy, materially and spiritually wealthy... that God intends to give us to live.

The SIMS are the true producers and creators of wealth as they do not waste time on politics and philosophy (to them a bore). Do not complain about their enjoyment of standing-around self-indulgence in the material, intellectual, emotional, and badinage. Theirs is the proper and happy life of rhatymia we all should strive for. The struggle is to minimize politics in our everyday lives as the SIMS do, not maximize politics as the Paternalists desire and as the New Worlders are forced to.

The fourth and final segment of civilization is the living TWENTY-FIVE PERCENT "NEW WORLDERS," or "positive thinkers." These are the doubting

fair airy bright inventive heroic starry-eyed leaders of the formation of progressive democratic transparent mixing free-market civilization. WHEN THESE NEW WORLDER HEROS - CHAMPIONS OF ENLIGHTENMENT AND WINNERS OF ADVANCEMENT - STAND UP TO AND DEFEAT THE BULLYING AND WEEPING STATUS QUO PROTECTORS AND WIN OVER THE SIMS (not as activists but only as voting supporters) A BLESSED CIVILIZATION SUCH AS THE U.S.A. IS THE RESULT. A two-word palms-up admonition I offer to counter arguments I encounter disparaging above said positive-neutral-negative-quark persons quadrisection notion: "third-world nations."

When we back down at the sound of the Oldster operatives' SIMS-winning vituperatives - such as nonsensical communist "dictatorship of the proletariat" smokescreens - the Gangsters cancer-like intume to fill the void in the society block. Always, the beginning of the doom of New World bloom is when New Worlders say "we want fairness, openness, peace and prosperity," but at the same time thinking to ourselves "but we don't want it THAT badly." Then, paying for our laziness and cowardice, we heroes-turned-poltroons reap our deserved reward of enslavement, and are rightfully socked with the criticisms of the real victims - the churning yearning hapless helpless leaderless jobless SIMS.

THE FINAL VICTORY OF "COMMUNIST" (paternalist, racist, nationalist...) GODFATHER DICTATOR GANGSTERISM WOULD IN REALITY BE THE FINAL UNDOUBTING CAPITULATION OF THE DOUBTERS- TURNED-SELF-DOUBTERS. Nothing more. Then the gangster mulcters reap their monopoly profits from we the Majority "barbarians," spoil and corrupt their natural and adopted children with material mammon and debauchery-glorification, and the big daddy-pleasing next-generation child-Gangsters gladly maintain and pass on the tyranny. By then it is too late, the doubters, including "wayward" children of the Gangsters, are immediately cast out and terminated - lest they break the monopoly.

But, soon, we will rise up, pronate the Old Worlder "wimps" ("we intuitively must paternalize"), detume the detested Gangsters, return the replevin, and win over the outside-this-room wimpish SIMS who have until now given in to the Paternalists. Taken together, the SIMS and the New Worlders form the 70% "Majority." The Majority will give in neither to creeping "it's bad? we'll make a law against it, relax," "feel glad? we'll raise your taxes to enforce it" tyranny, nor suddenly imposed "it's us against the rest of the world we cannot trust" tyranny.

We the Majority will understand and expose their galling motives and methods. We will ditch the stalling Old Road, and go into New mode. We'll all be rich. The shelved Old Worlders, though newly enriched themselves, will be left to spin about, looking for ways and means of suffering amongst themselves. The shapeless Gangsters will be relegated to an endless maddening shadow-chasing search for monopoly profit - few opportunities will remain in the bright transparent sharing embracing New World.

The moment most SIMS decline to follow the lead of the ranting

laugh-feeding wimp chorus, "New Worldism is booooooring, let's live for today, don't worry about tomorrow, your children can take care of themselves," and cross the tombolo cast by the New Worlders... the crystallization of the chatoyant will occur. Then it will all be downhill to the COAST... it will be a done thing for our children and our souls. They and we will not endure the incredible and unnecessary suffering and injuries people in past generations absorbed, this New generation abhors, and next generation will abjure.

We the Majority will fight for family, health and happiness Majority New World values. We will fight against the wimpish world of misery glorification, wasteful monopoly profit, and "may the doubters and schopfers be damned if they do not submit" Minority Old World values.

We have every right to dream heroic dreams. - Ronald Reagan

- - - - -

Those SIMS who in advance label New Worldism "boring" do it because they equate HAT with politics in general - which have become very boring indeed. At first glance the young and youthful say "New Worldism deals with politics and economics therefore it is booooooring." Yes, our political scene has become very vapid, very wimpish. The seemingly interesting things zat occur and are publicized - they are nuances, not New. It is nuance and okay (and boring) to bow down to our antediluvian Constitution and talk about patching it up. It is New and "crikey..." (exciting but unforgivable) to step forward and talk about writing a New Constitution.

But as history has instructed us, many people complain and controvert out of instinct and habit, and just for the pervert enjoyment of being contrary. From Woodrow Wilson's "Congressional Government":

It [the Constitution of the United States] came hard by its establishment in the first place, prevailing with difficulty over the strenuous forces of dissent which were banded against it. While its adoption was under discussion the voices of criticism were many and authoritative, the voices of opposition loud in tone and ominous in volume, and the Federalists finally triumphed only by dint of hard battle against foes, formidable both in numbers and in skill. But the victory was complete - astonishingly complete. Once established, the new government had only the zeal of its friends to fear. Indeed, after its organization very little more is heard of the party of opposition; they disappear so entirely from politics that one is inclined to think, in looking back at the party history of that time, that they must have been not only conquered but converted as well. There was well-nigh universal acquiescence in the new order of things.

reason why in these "modern times" we have a potpourri of impoverished and rich civilizations. I BECOME LIVID WHEN CONFRONTED BY THE ITERATIVE "EVERYONE OUT THERE KEEP OUT OF OUR INTERNAL AFFAIRS." There is no such thing as "internal affairs" of countries on this Earth. It is the Paternalists and their wimpish following flock who promote the circular "different people are different" doctrine. This is to keep insider SIMS lined up for defrauding and to prevent outsiders from visiting to lend a helping hand... a steel fist which would free those who are prevented from drifting... a steel fist that circles above the head, arcs downward past heaven-turned eyes, and slam-drives the nails that seal the coffin containing the lies, slander, deception and "protection" which prevents global peace, prosperity, New World birth... and Old World-preserves.

We have no "internal affairs" here in the U.S.A. The soon-dead Gangsters who head communist China are hereby invited to come to the U.S.A. and mingle with and speak freely to our citizens. We will politely listen to the hacks' "Socialist China is already free" prevarications, but we'll speak out loudly against them behind their backs. For if China was really free these empire-building Red Guards would not turn down requests from U.S.A. leaders to mingle and speak freely with citizens of China. What the empire-builders hate most is intrusion from outside their carefully constructed monopoly yards, and the resulting widespread race by their captives to embrace the "outsider makebates." These Gangster enforcers of antidisestablishmentarianism have coerced, conformed, and bought off the Old World-enforcing establishment. But they cannot cow nor buy off the implacable, new worldishist schopfer-schopfer antiestablishmentarians who do not flinch when confronted with GAGA ("to get along - go along") convention.

Bluntly, by allowing China to remain imprisoned and impoverished, by letting the world remain Balkanish and wimpish, we foil global economic progress and happiness creation. By not fiercely confronting and lynching the head forces of the dark side... we are endearing satan's work. America cannot nor should be a nativist isolationist roofed-over island. The question is how much we will absorb and how much we will instead spread. By not flinching from sowing of Americanism - free enterprise, democracy, cultural & ideological mixing, political & economic transparency, and positive "can do - let's do it" thinking... we are doing God's work. God wants happy, satan wants misery. People have differences but they are not different. We remain, as created by God... one extended Global Family. Our entire family will soon be united once more, march, caress, gain and bathe in New rich glory. THAT is this generation's mark in history.

- - - - -

THE FIRST VANGUARD NEW WORLDERS MUST FIGHT NOT ONLY FOR PROGRESS AND THE DEFEAT OF PATERNALISM IN THEIR OWN YARD, IN AMERICA, BUT MUST ALSO

EXPLODE AND SPREAD PETARD NEW WORLDISM -AMERICANISM- TO ALL VITIATED OPPRESSED OLD CIVILIZATIONS. THE KEY IS OUR ASSUMPTION THAT WE WILL BE REBORN INTO THEM.

- - - - -

Information is the hill-high ally of New Worldism. Disinformation is a villain, but is a necessary evil rut. Wut's the true enemy? - lack of information. This is why the press, TV, and paparazzi must be cherished and encouraged. Never desperately disparage the media. In our conflict with them they may occasionally inflict superficial skin wounds, but in the gut their members are the trusting friends of New Worldism. A free flow of information means contention. Contention means transparency. Transparency means mixing. Mixing means gleg creation and flourishing of the New World Man, Woman and Child. Transparency means the assured expose of the whiskey-and-rye swillers for wut they are - dregs, illegitimates, misfits. HAT means the ascendancy of the Better Way. The day-saving Better Way is HAT is New Worldism is Americanism is the United States of the World. WHAT is HAT? tHAT is HAT.

Substance, details, speculation, contention, inner two mostly a waste. Paternalists in the U.S.A. and everywhere have always and will always only barely tolerate information flows. If not strongly stood up to, dem baby blue "do-gooders" will forever succeed in stifling all but D. (as in details) S. details-an-speculation excess-bleb-core-ignore (I always think this is just...) LOADS-O-"D.S." conveyance/ conversation/ presenatation. One insult-result: Oll dem woe-be-me misery-glorify TV shows. Instinctively striving to stifle contention, real change and weal progress (which would make them "look bad"), the Patsies are goaded by an' smirk at those "rads n' rebs" who carry doubt to the bleb-sore-core causes of social problems, and these guys who surmise perfidy + periphery + ancillary = reality spout "gadzooks cad, you don't have enough information, do more homework, read." Well, excuuse me. To them I shout THE MORE I SEE AND READ THE MORE I DOUBT, AND THE MORE ASSUREDLY I CAN SHOW YOU NEW WORLDISM IS THE BETTER WAY. I tell them, "let me look at any book zat (that) berates New Worldism, and an hour later I will take apart it and its author... and more important, find and quote sound support for the HAT track. Realizing the ultimate foundationless weakness of everything standing in the way of inspired New Worldism, the omrondle (Old Worlders + Gangsters) mind managers are working feverishly to strengthen their laughing languorous slack hold, lest they lose their hard-won ground.

What can we do to pat down Patsies and pad down the path of the Better Way? Not by stopping the growing trade with China, but rather opening free flow of ideas to China. Write your own "HATrack philosophical novel" and send thousands of copies to the president of - and dissidents from - China. Ask them to join us. They will rush up the fighting front hill

and we really will back them to the hilt. New Worldism transparency will first re-assert itself in the U.S.A. and then, with the defeat of the widespread Blindganger anti-glory mind managers, the HAT flag will be unfurled o'er all civilizations and create one copestone ferly nation - the New World.

The current U.S.A. is the best example on this particular precious planet for the early stage, mid-2000s New World, so it is natural and rightful that the New World Phoenix will raise its infant head here. The byrd with its fixed eagle eyes will see straight through the Paternalists' New-nix freedom-purloin intentions, fall fast, and with its sharp talons rip their apartheid-protection position apart. The Phoenix-following New Worlder phalanx ranks will fight for the Five Good Social Concepts = New Worldism = Americanism = 1) free enterprise, 2) democracy, 3) cultural & ideological mixing, 4) political & economic transparency, and 5) positive "can do - let's do it" thinking. The Phoenix byrd and phalanx ranks will spread the four gentle wings of 1) free trade and movement of peoples throughout the Earth, 2) a guaranteed yearly income for all from time of birth to date of death, and 3) one common international language.

And most importantly, and excruciatingly painfully to the elitist v. the beholden dichotomy protecting Paternalists: 4) miscegenation. NEW WORLDISM WILL ENCOURAGE INTERNATIONAL CROSS-CULTURAL AND INTERRACIAL MIXING, INTERMARRIAGE. I tell you I view with special suspicion oll cults, cultures and doctrines which do not glorify racism-erasin' mixin'... for anti-homogenation is THE core strength of the heart of oll evil - of monopoly. How can Gangsters monopolize fenced-off tribes if there are no longer any fences facing? The now-popular quest for "politically correct" maintaining and cordoning off of "pure races" is Hitleresque, the rank fuel tank of the canker Monopolist.

I ASK YOU are the paternalists' quotas and reverse discrimination laws (cleverly sculpted to not effect the mulcting Paternalists' sinecure stations other than to increase monopoly profit and enhance misery-enjoy) the cure? I ANSWER the answer is to atomize the problem. Patsies reject miscegenation not because they do not want their daughters marrying "those different Russians." Rather, they simply do not want to eliminate the world's number one fun source of monopoly, lachrymatory, and attention diversion and attraction.

Miscegenation is not a joke, not mere exhibitionism. But it is a form of rebellion, a casting off of the yoke of racist tribalist norm. And it is the hat and Zierat of the New World. It is the HAT Wearer leaders' symbol of and commitment to the HATrack. It's the ruin of the Old World and the realization of "shinjinrui" - New human beings.

Look around you, look in the fashion mags. The first New Worlders are der well-bred "mixed" children. Adore, admire and cuddle them, they are the future. They are the defeat of mind tyranny caudle and the start of the New World. My eyes light up when I see these "newpie" = well-bred

mixed children. It is all I can do to keep myself from racing o'er and coddling these li'l Zierats and their parents. I abrazo them in my dreams and soul.

As Tom Porter, a person with Native American ancestry said:

In the beginning, our Creator gave all the races of mankind the same songs and the same drums to keep in touch with Him, to keep faith. But people kept forgetting. In the fullness of time, the spiritual traditions of all the peoples - they are the same - will be united again in a great gathering of their secret leaders. And they will gain power to remake the world.

IF CERTAIN RACIAL GROUPS DO HAVE SUPERIOR QUALITIES, IT IS THEIR NOBLESSE OBLIGE TO SHARE AND SPREAD THOSE QUALITIES. Only in this way they can truly manifest their advantages. They can share, or face soon being destroyed by the infesting impoverished starving masses... or be enslaved by those who will claim to be protecting themselves from the horrible hordes... or have their bones turned to dust in a 無 mu "honorable" global seppuku.

So-called "inferior races" are not vapid. Rather they have been misled, deprived, separated, and eschewed through the ages by depraved insider/outsider Patsies. They have been imbued with Old World culture, skewed to be self-derogatory, for greater ease of mulcting, enslaving, and... . paternalizing by tribal chiefs in various guises. Henceforth they will be renewed with pride and hope for future HAT culture.

Those rows and rows of people - "white" and "black" - who are obsessed with paternalizing and being paternalized... who strongly say they want fairness and civil rights... but who in no way strongly and publicly glorify Zierat-mix... are hypocrites, whiners, surface-scratchers and Blindganger... God... please help these yelping moping pouters and self-doubters cope with themselves in the coming New World where they'll have very little to wet their pillows about.

I say those who have "white" faces among the young and younger-than-yesterday twenty-five percent New Worlders will doubtlessly start to internationally and interracialy marry with their bookish new worldish counterparts of other nations and races. Many of the SIMS will follow the lead, but at least they will admire those who choose love and lead over comfort and greed. The others will embosk themselves close-eyed in the furze, worried that tony fraternalism is gaining hegemony over phony paternalism, outraged by the fact their ilk's professions of wanting to end social ills have been lain buck naked as costly hypocrisy, duplicity, mind-tyranny-monopoly, and desire for run-amok misery-muck and final holocaust.

At least twenty-five percent of "black" people will be willing accept HAT Zierat, to receive chatoyant, to intermarry. The twenty-five percent young black people who are in trouble with the law all are because they've

been conditioned to denigrate rather than celebrate. They've been sold-into-slavery forced to accept godfathering and endorse the accompanying poverty of body, mind and soul. If they are treated like equals and see themselves as one with the others and are given attention and given a vision where they are essential actors - they will stand tall and rate among the strongest New World leaders. Read and write Great books, educate SIMS schnooks, grate wimp sooks, eradicate Gangster crooks.

I read somewhere fifty percent of Americans who came from Asia are intermarrying with Americans of other races already. Let's follow their fair lead and breed true HAT spirit and Zierat: forward-march - the New World creed. Rather than perpetuate, propagare and join the other side's mulct/ tumult... those who have been given advantages by God, those who truly desire benevolence and progress, THE NEW WORLDERS MUST TURN THEIR EYES TO HEAVEN... AND THEN DO HAT THAT IS NECESSARY TO END THE SHAMEFUL SHAM OF THE CURRENT GLOBAL COMMUNITY OLD-WORLD-CONTINUITY ROGUE BLINDGANGER MOBOCRACY... thereby we will end all chances of our demise and 1) rise of a bogus "master race 'samurai' Middle Kingdom," or 2) accidental self-impooverishment/ annihilation - global warming or nuclear war... fried and died. Instead, if the New Worlders take advantage of their chance in the year 2050 the New World will be realized and we'll all join hands and dance. Then true New Master Race no later than 2552.

This following passage brings a tear to my eye every time I read it, from Stanley Karnow's "Vietnam, A History":

A poignant legacy of the French and subsequent American interventions in Vietnam is the unwanted children. The "Amerasian" kids fathered by U.S. troops may number as many as fifty thousand, the majority concentrated in Ho Chi Minh City and other towns where GIs congregated. Showcase orphanages care for a handful, but the xenophobic Vietnamese shun most as outcasts, denying them education, jobs, and even food rations. Those I saw - some with blond hair and blue eyes, others partly black - were peddling or begging on street corners. The mothers, many ostracized by their families, implore international refugee agency officials to locate the fathers - often identifying them simply as Joe or Bill or Mac, to whom they were "married" for six or eight months in Saigon or Danang fourteen or fifteen years ago.

The Communist regime was initially reluctant to release the Amerasian children, calculating that they might serve as chips in diplomatic bargaining with the United States. President Reagan and the Congress were equally slow to revise the U.S. immigration law. But finally it was amended in 1982 to permit a few thousand children to join their fathers in America. Thousands more - neglected in

Vietnam and barred from the United States - are doomed.

These kids are adults now, standing against the brigand Gangsters and Old Worlders who cow, ignored by the new worldish who turn their brow. But they are forerunners of the future true master race and by God they are embraced. They are New Worlders who, when encouraged by us will show us how. To join them we will not here make room. Instead, we will be true and anoint. Although neglected they are not doomed... rather, they are selected and will bloom. There are Schopfers in there.

THE FIVE GOOD SOCIAL CONCEPTS ARE NATURE AND NATURAL... free enterprise and democracy are both logical and historically proven as good concepts... cultural/ ideological mixing and positive thinking are natural but we have been conditioned against them by the wimps... transparency allows these facts to stand as bare naked truth spread before us... there are no new "good" social concepts... the only thing New is which ingredients are used, how they are used, and how they are highlighted... WHAT is God for and WHAT does he stand for?... He stands for nature and the natural. Think about it... God can only want us all to climb up the staircases and form the healthy wealthy happy New World. Satan can only want us to invent/heed excuses not to, feel good about it, and dig in the boot heels.

"Without dreamers, humankind would still live in caves," said Anatole France. So, how do we bring dreams to reality and effectively deal with monopoly/ misery/ poverty-caused problems? Obviously the "liberal," socialist, bandaging, paternalistic methods since the 1930s haven't worked. Obviously we will not return to laissez faire (compared to today it's what we had until the 1930s) - I don't see the masses flocking to the Libertarian party. Should we have just let the Kurds die in the mountains saying "they brought it upon themselves?" Liberal coddling won't work. Laissez faire swim-or-sink won't work. So let's make everyone in the country, and then in the whole world, contented shareholders in America, all continents, and in Americanism. We'll dream about an even better life for the future generations... perhaps it is too late for our own, but I hope not, depends on the vivaciousness of the New Worlde Schopfers. We'll soon start to overcome the main causes of the plight of the unlucky downcaster "underclass" - their lack of self-esteem, the neglect by the recently stagnant New Worlders, the world-leading Schaffner will drop from their segment I dream...

Please listen closely and cogitate with me... one of the planks of the New World Party will be eventual phase-out elimination of income taxes to be replaced with phased-in value added and sales taxes. "Sales taxes are regressive, the poor pay a higher percent of their incomes in sales taxes" you say? Yes, therefore there must be another side of the scheme

to make sales taxes fair. The flip-side is the phasing-in of the Citizens Shareholder Dividend (CSD) - an equal share for all, rebated by the profitable government every year to all citizens, starting with \$100.

The New Worlder politicians will have to remove dem awful conventional politicians first, because there are too many powerful monopoly special interest groups with vested investments in the Status Quo convention, who over the years have directly or indirectly bought off the current batch of Dem pols and their waiting-in-line, mentored progeny. Think of the tax accountant and attorney monopoly profit fees to be lost when we institute a simple and fair sales tax/CSD system. And think of the Old Worlders who would no longer be able to enjoy the misery of tax-collector harassment, and in general the poverty-causing bold-idea- bankrupt and thoroughly corrupt, Old system. As Milton Friedman said, "Truly simplify the tax system, and all of a sudden a major source of patronage for politicians would disappear."

All of us at a certain point make a conscious or subconscious decision not to press for a higher level material life than our current situation. Some want to watch TV 3-4 hours a day or spend time with children or on a hobby, others would rather work or study more. Among those who don't press are many who then seem to enjoy crying about their resulting lack of material abundance, blaming others for their predicament - the "rich" (those who press hardest) being the favorite bad guys. But then many take self-responsibility for their situation, and either don't complain or do something about it - are these positive people Republicans? Jealousy and envy are strong negative emotions.

However, everyone should have a guaranteed standard of living. A lot of your lot in life is the result of luck, including whose family you were born into, amount of inborn level of practically productive energy, and whether or not you win the lottery. And if people don't like to work or are unable to work why should they? Freedom and happiness are the goals. The U.S. government should start the CSD, eventually paying \$50,000 (an arbitrary figure) to all from birth to death. But we would have to reduce government size and cut/eliminate other transfer payment programs such as social security. And the CSD would only be paid when the budget surplus allows.

With a simple and efficient federal flat sales tax, substituted for the current individual and corporate income taxes with their myriad shelters, the richer would pay a relatively lower percent of taxes. But this would be balanced by the poor receiving a relatively higher percent of CSD.

Yes there is much monopoly waste in the system, in both government and business. Government should fight against the monopolists, not work with/for them. Bigger government just creates more monopoly opportunities. Let's free ourselves from politics so we can focus on economics.

Do the Blindganger have specific ideas for remedy? Or do they rather enjoy complaining and misery? The USSR was the ultimate big government "solution" and boy was that a miserable place - and the negatives among them were very content.

DON'T LOOK FOR THE CURRENTLY OUT-OF-SHAPE REPUBLICAN PARTY TO DO MUCH MORE THAN TALK - UNTIL AFTER THE NEW WORLDERS FROM WITHIN AND WITHOUT HAVE PINCER-LIKE INFILTRATED AND CO-OPTED IT. It seems impossible and undesirable to co-opt the Democrat Party, but we do want half of those over there to come over here where they belong. Hilliary too? HAT will be a neo-progressive movement. From Teddy Roosevelt's address to the new Progressive Party convention in 1912:

If this country is really to go forward along the path of social and economic justice, there must be a new party of nation-wide and non-sectional principles, a party where the titular national chiefs and the real State leaders shall be in genuine accord, a party in whose counsels the people shall be supreme, a party that shall represent in the nation and the several States alike the same cause, the cause of human rights and of governmental efficiency.

At present both the old parties are controlled by professional politicians in the interests of the privileged classes, and apparently each has set up as its ideal of business and political development a government by financial despotism tempered by make-believe political assassination.

Democrat and Republican alike, they represent government of the needy many by professional politicians in the interests of the rich few. This is class government, and class government of a peculiarly unwholesome kind.

It seems to me, therefore, that the time is ripe, and over-ripe, for a genuine Progressive movement, nation-wide and justice-loving, sprung from and responsible to the people themselves, and sundered by a great gulf from both of the old party organizations, while representing all that is best in the hopes, beliefs, and aspirations of the plain people who make up the immense majority of the rank and file of both the old parties.

Most people do not want minimalist government. They want creative, active, positive, inspiring leaders and government. They want social security, health care for the poor, and standard of living safety nets. Government should take care of the societal needs the natural marketplace does not. The "swim-or-sink" laissez faire doctrine does not win votes, as the Libertarians have shown us - their candidates garner only half of one percent in U.S. presidential elections. People want government that helps the needy, encourages creative non-conformity, but is efficient and responsive. So, how do we have both? We do it by 1) proroguing in steps current intrusive social welfare programs, 2)

phasing in a Citizens Shareholder Dividend tax rebate starting with an equal share to all of \$100. The CSD will grow to a guaranteed income for all of \$50,000/ person/ year as the government becomes "profitable" and the economy booms due to transparency, the end of the monopoly effect, smaller non-intrusive government, and the newly affluent, educated and productive formerly downcast underclass.

The biggest stumbling block to change remains "inflexible mentality." We have been hampered by ingrained dogmatic views, the habit of taking a passive attitude, sitting idle and only doing what the boss tells us. All these handicaps are still making themselves felt. - Mikhail Gorbachev.

The dream: world-wide peace, elimination of starvation, disease and crime, material well-being, intellectual and spiritual freedom and fulfillment, and happiness... OH HOW DO THE OLD WORLDERS OLL OVER THE PLACE FLY INTO CONNIPTIONS AT THE MERE THOUGHT OF ALL THE ROT-REPLACING HAPPINESS. Think about it though... why do the Old Worlders force upon the SIMS the cult of "live for today, indulge and debauch yourself"? Because they have no hope for nor interest in the future. They have no use for good. They have no use for God. They truly believe in, expect and look forward to our doom. I ASK YOU, lovely Phoebe here with me in my room... will the SIMS continue to follow their elegiac track? I ANSWER with a single word ploc... NO, NO, NO, a thousand million times NO. Hold a mirror up to a mirror.

- - - - -

The formation of the New World will avoid Ecocide by: 1) preventing population bomb mobs, 2) ending poverty-caused-forced slash-and-burn of rain forests, 3) adding billions of educated and ecology-minded world citizens, 4) adding millions of clean energy creation and usage inventors. New World-winners want to solve the ecology problems with societal progress. Derelict Old World whiners use "save the ecology" pratings as an excuse to regress toward the dark ages, their tools being freedom-muffling and economic growth-stifling oodles of laws and regulations.

In the New World there will be one common language. I predict the New World language will be Spanish. The "New World Party"-led U.S.A. will propose Spanish, not English. IF WE ALL PETITION FOR ENGLISH DIALECT THE SINCERITY OF OUR DESIRE FOR PROGRESSIVE CHANGE WILL DIRECTLY BE CALLED INTO QUESTION. It does not really matter what language, Italian is okay, French is okay, Russian is okay... German is okay. Let their speakers take the lead in building the New World and we will happily imputrescibly choose any one of them. All is relative, you and I could now be reading this in the soon-to-be universal New World dialect and the meaning would not be different - as clear as this English verse. You ARE reading this

in the New World language now. Spanish is in widespread use, is phonetic, and is relatively politically neutral. It is the second language of the U.S.A. It symbolizes the infant and young American New World. It is the tongue of the putative future top-rung New World capital - Cuba.

The miserable sinning conventional sap Old Worlder worshippers of complexity/ mind-tyranny and descent to lowest rap common denominator will continue to endorse the incoming torrent of "charming" miscellaneous local languages and even to force harming outrageous various polluting old worldish cultures on righteous fortgeschritten new worldish (e.g. Germanic) culture. Political leaders in Germany (U.S.A., and all advanced new worldish nations) must invoke immigration from Turkey (Vietnam, Haiti) -only- if the to-New-comers 1) abandon Old ways/language (in public from beginning and at home ASAP), 2) with abandon race to have children hallen and be seeded by the indigenous New-breeding chatoyant volk faces, 3) embrace New Worldism-strengthening here and its spread everywhere and prepare and condition the country they came from for "Greater U.S.A."/"Greater Germany" (in reality what the forming U.S. of Europe will be because Germany is the main entity forcing unity)-induction. WE'RE COMING AFTER THEM.

As Ayn Rand wrote "a disagreement that does not challenge fundamentals serves only to reinforce them," e.g. the Israeli-Palestinian tribal mindset reinforcement by 100-facet Rubik cube-puzzle-solving-reveling process-obsessed pols and pundits. New = heroic, Old = pathetic. When we have New World nation there'll be no need for Old Worlder accommodation.

Envelopment/burnish-encouragement to be furnished by Party, government, and Volk. Imitation is the sincerest form of flattery, one tends not to batter one's won-over flatterers. Germane world unity will mean the economy will be better: "After German unification in 1870, industry grew phenomenally." - Marvin Perry- Western Civilization.

Newcomers who've chosen to U.S.A./Germany-marry must not allow the myth (truth?) to continue: "Decline of our nation is in large part caused by recent non-northern-European immigrants. Their passivity, their non-mixing, their not discontinuing use of Old language, their not promoting new worldish political views, their refusal to abjure Old Worlder destroyers of germane/ conceptualization-core culture, their cowardly submitting to paying 'protection money' to local mafias, makes them not more acceptable but rather deplorable, it our-culture-devours and Blindganger-empowers." DON'T FADE DEAD INTO THE BACKGROUND AND AID WIMPS' ATTEMPTS TO HOLD GROUND. RATHER FADE INTO YOUR OWN PARADE AND STRIDE TO THE SIDE OF THE NEW WORLD PARTY AMERICA-ENLARGE FORWARD MARCH.

You apparent New Worlders immigrating to our nation from Old World countries, please bring your foods and points of view, but please, understand the putrid feral core we deplore. Don't confuse our patriot violent anti-Old Worldism with imagination-figment racism. March in tune. Don't ruin the New mood with your baneful parents' and vain-full

monarchs' Old-age tribal Gangster-encourage dull rancid "anti-conceptual" give-in-to-brigands and sing-da-blues attitudes. And Rand continues with the anti-New anti-intellectual anti-conceptual Old World stand explanation:

The concrete-bound, anti-conceptual mentality can cope only with men who are bound by the same concretes - by the same kind of "finite" world. To this mentality, it means a world in which men do not have to deal with abstract principles: principles are replaced by memorized rules of behavior, which are accepted uncritically as the given. What is "finite" in such a world is not its extension, but the degree of mental effort required of its inhabitants. When they say "finite," they mean "perceptual."

Within the limits of their rules (which are usually called "traditions"), the inhabitants of such worlds are free to function - i.e. to deal with concretes without worrying about consequences, to deal with results without bothering about causes, to deal with "facts" as discrete phenomena, unhampered by the "intangibles" of theory - and to feel safe. Safe from what? Consciously, they would answer: "Safe from outsiders." Actually, the answer is: safe from the necessity of dealing with fundamental principles (and, consequently, safe from full responsibility for one's own life)...

Racism is an obvious manifestation of the anti-conceptual mentality. So is xenophobia - the fear or hatred of foreigners ("outsiders"). So is any caste system, which prescribes a man's status (i.e., assigns him to a tribe) according to his birth; a caste system is perpetuated by a special kind of snobbishness (i.e., group loyalty) not merely among the aristocrats, but, perhaps more fiercely, among the commoners or even the serfs, who like to "know their place" and to guard it jealously against the outsiders from above or from below. So is guild socialism. So is any kind of ancestor worship or of family "solidarity" (the family including uncles, aunts, and third cousins). So is any criminal gang...

The Mafia (or "family") is a "private government," with subjects who chose to join it voluntarily, with a rigid set of rules rigidly, efficiently and bloodily enforced, a "government," that undertakes to protect you from "outsiders" and to enforce your immediate interests - at the price of your selling your soul, i.e., of your total obedience to any "favor" it may demand...

There is a crucial difference between an association and a tribe. Just as a proper society is ruled by laws, not by men, so a proper association is united by ideas, not by men, and its members are loyal to the ideas, not to the group. It is eminently reasonable that men should seek to associate with those who share their convictions and values. It is impossible to deal or even to

communicate with men whose ideas are fundamentally opposed to one's own (and one should be free not to deal with them). All proper associations are formed or joined by individual choice and on conscious, intellectual grounds (philosophical, political, professional, etc.) - not by the physiological or geographical accident of birth, and not on the ground of tradition. When men are united by ideas, i.e., by explicit principles, there is no room for favors, whims, or arbitrary power: the principles serve as an objective criterion for determining actions and for judging men, whether leaders or members...

For years scientists have been looking for a "missing link" between man and animals. Perhaps that missing link is the anti-conceptual mentality.

IMMIGRANTS, WHEN COMING TO AMERICA, GERMANY, AND ALL NEW WORLD COUNTRIES, YOU MUST IMMEDIATELY BREAK UP YOUR TRIBES, GANGS, GHETTOS AND EXTENDED FAMILIES. Remember, you came here to come-to-New-contribute-associate, we will not allow you to with-Old-New-pollute-and-assassinate. Mix, sop up the top American, German, new worldish pro-conceptual values. Learn the New World language, nix baneful and vain and brain-aged Old ways. Join the good political party THAT is economics-association-ideal-New-true; avoid the bad political party zat is politics-tribe-"deals"-mu-blue. When you embrace the American, German, New World, race-to-New, anti-mu state of mind... you'll find we'll be kind.

- - - - -

Because of the artificial barriers conveniently erected, the Old Worlder-promoted various harming loco local language and anti-conceptual culture devils allow monopoly profits for the Gangsters, and produce sick misery-causing poverty and brain-boggling language study torture for the subjected who dare try communicating with and absorbing those peoples and thoughts and words deemed "different." I struggle on in my own brick-head efforts to read elementary Japanese - wasting precious time my descendants will spend reading and writing advanced divine philosophical topics in New World language, studying geology, and tickling piano ivories. ONE LONER SHOUTING FOR ONE COMMON INTERNATIONAL LANGUAGE AND CORE CULTURE IS BUT A WHISPER. A THOUSAND SHOUTING IS A ROW. A 70% MAJORITY SHOUTING IS FAIT ACCOMPLI. Those who say "no way Jose" today will lead the way tomorrow if only we keep the rolling stone rolling.

Just as the German-core-culture (German is the most common heritage here) U.S.A. is the model for the infant, year 2050 New World, Japan is the apparent model for the mature, year 2550 New World. Its fresh young soil has been newly thrust up from the Earth's core. It has a homogeneity

THAT has resulted from the complete assimilation of scores of racial groups that came to and mixed in the archipelago millennia ago. It has a healthy crime-free family-orient intelligent people - all will be featured in the global homogeneous true master and genius race treading and traversing the vast spread and outer space of the year 2550 nifty New World reinvigorated soil and universe. "Japanese" culture, experience and moil will be a key ingredient of the fertilizer and oil.

Of course, just as the U.S.A. has darkness-caused Gangster-capitalized buck-sucking societal faults, so Japan does too. But, on-course these foibles will wilt and wither away as these two mother and daughter countries respectively shuck their love of anti-New penury-causing debauchery and assume and start their progressive global responsibilities and activities... and spread the gentle wings of Americanism and New Worldism by: enlarging the U.S.A.; creating and enlarging the U.S. of Asia. Their phalanx ranks will promote Spanish language. But if to-Spanish is not agreed, the second choice for a worldwide language will be English or Japanese. That is, unless the wondrous Russia blank sheet is the actual New land... and the common tongue soon is in-Russian-sung.

The "Japan Question" will be forced not by governments, but by weekend shoppers. Japan is a burgeoning leader of the New World, but the flower buds and fruit nubbins are bein' diluted and snipped away by the well-known tendencies of the up-high source foot-and-root-binders. The spoilers of the sweet sakura blossom THAT is Japan face being faced down not by intra- and extra- heavy pocket yakuza government officials, but rather by internal Japan consumer rebellion and external all-lands consumer boycott. But, as in the U.S.A., free enterprise and transparency will sink the Gangster yacht, stop the rot, rout those on top who whirl at the core, and then we'll fill the sandbags. We'll dam the river of mammon and Japan will become the bridge spanning over it o'er which we and HAT will soar to the New World. Guten tag.

First the British monarchy - in the well-known English tradition of verbose heroism - will show the way. THE EMPEROR OF JAPAN WILL NOT DELAY, OBEY, AND WILL WILLFULLY GLADLY STEP DOWN, RELIEVED TO BE OUT FROM UNDER THE THORNY CROWN. Both queen and king will say, "if THAT'S WHAT you want, you can have HAT." Then Japan - culture transferred from the root-constraining bonsai-creating girl-cry-denying mind garden pot to the wall-less Earth spot where it can spread its roots - will show its true "banzai-New-try" model face, share its gold treasures and instruct all of us who are begging for "how-to" instruction. The Earth will be Old-diminished, New-embellished, and saved from slavery, misery, and self-destruction.

OLD WORLDERS, WE 70% NEW WORLDERS + SIMS MAJORITY WILL FORCE YOU TO LAY DOWN YOUR WEARY "ONE LANGUAGE FOR THE WORLD IS A SHOCKING THOUGHT" TUNE. Then from the old barren branches zat previously inimically inculcated, the leaves that are all our children will fall, touch down, and cling to their New love's breast - as this text attests - to hold to the New World Party and borderless Spanish-speaking peaceful wealthy happy United States of the World. To those of you who are undecided and keep talking in your brain the tune's thumping bass refrain: "how can I parry THAT?" - we ask, "WHY NOT MARRY HAT?" We will rock you.

You need a reason to HAT-object? I'll provide you one right here: fear of the "homerun effect":

If you have a society that largely realizes peace and prosperity with a fair degree of social justice, that leaves people with no great issues to aspire to or no great causes to struggle for. Faced with endless peace and prosperity people will become bored because there is a side of the human personality that wants struggle, risk and aspiration. The risk is that our democratic society will somehow get dragged back into history as people revolt against the very system that has brought them peace and prosperity. - Francis Fukuyama

SCHmaltz, schMALTZ, SCHMALTZ... I can just picture these above lines being prated, savored and propagated by the worst mind-tyrannist Old Worlder block-watchers in Beijing today, and by the staring pursy ones everywhere throughout history and throughout the universe. In other words, "happiness will be booooring, therefore we must resist those nerds who propose to bring on happiness." Well this, my friend, I need not yell, is the essence of their Old Road story - misery... anti-prosperity... somehow... is swell.

NOT... Happiness is only boring to fatheaded wimp fops. We Majority will not leave the wimp cusses to continue their forcing of their weary tune on us. Instead we will fly them off to their own island bethels of misery-revel, leaving we the Majority alone. No, we'll not stray down on their Old Road of mind-tyranny. We will go way up the New Road to the New World where we'll have freedom of movement of peoples, where we'll lingua-franca-speak, where we'll have a good standard of living guaranteed, and where we'll have not boredom but mind-peace. And, I assure dem Old dud wimpsters - the weary tune songsters - they will still have plenty to wax ferdutzt about... themselves-amongst.

From Findley & Rothney's "Twentieth-Century World":

Small wonder that we feel our societies to be increasingly complex, bureaucratic, and bewildering. With the liberation of the individual has come a heightened sense of alienation, psychic distress, and a growing readiness to protest - often by joining political or religious movements. The decline of familial authority over the young has also brought out a degree of intergenerational conflict that would not exist, or find open expression, in a kinship society. The varied forms of protest are especially evident in Western societies, where the orientation to change has been established longest. Under conditions of poverty or repression, such protests may be muted for a time, but they will burst forth when given the chance.

And burst forth they will. Our young and younger-than-yesterday see through the hypocrisy, insincerity, half-baked half-measures, bandage-applying, and selfish attitudes of my Older "feel good - stay in touch with feelings" greed-orient kill-New generation. Indeed, all the swirling old worldish schmutzy indolence is embodied in the tribalism-glorifying, apartheid-creed "yes, their tribe is different, unique and beautiful... no they have no faults (except they're not a member of our tribe)" of the locked-in "political correctness" doctrine vault - under which problems are not to be solved but rather to be glossed over by silence, ignorance, and laughing protection of "different people are different" tender sensibilities. Our misled force-fed youths have swallowed it, and have been victims of the Patsy misfits. WUT OTHER EXPLANATION FOR THE DISILLUSIONMENT AND PHILISTINISM OF OUR SEEDLINGS BUT THIS RUT - SO MANY OF OUR MIS-LABELED "ABLE LEADERS" ARE HOLDING FAST TO AND FORCE-LADLING IMPOVERISHING OLD WORLD SCREEDS INTO THEIR EYES, EARS, HEARTS AND BRAINS.

But, when the furtive folly of their artful farrago is flayed and exposed, those in their formative years will forego the New World ferly no further. The latent change-oriented kneeling pleading bleeding rebellious religious youthful touchy-feely New World Zierat HAT movement everywhere will germinate slowly at first and face wimpish derision and boring berating by the contrary conventional paternal parental Old World cavalcade. However, those cusses who oppose us, U.S., and the New World Better Way will not only later be forever disgraced, they will also provide us needed inspirational gleeds... a fire THAT will ignite and light us.

The New World Nation formation conflagration will then rapidly spread. When the hill summit is reached we will not "eliminate" the dire fire-lighters, we'll instead just democratically keep them out of political, social and economic positions of power and leadership and influence - they'll be allowed to share in the riches but will be pushed aside to languish and anguish on their self-constructed isles of misery. I will hum "Rain" and remember the insincerity of the bootheel-dragging barrier-erecting brain-numbing dumb ones who could and should have helped us toward New-won... from day one. Abrechnen Abrechnungen.

New Worlders will never execute Old Worlders, nor any humans. (Nor will any offending animals be executed since we will have the resources to comfort.) Execution of humans is the pernicious "final solution" of those who support the conviction some people are better and some people are disposable - preferably only after a substantial dollop of misery has been inflicted.

We will expect and encourage the wimps to continue shooting anti-New World inspiring flaming arrows. The eagle of Americanism will catch and redirect them. Then the tricked fusty rows will be relegated to their proper fringe musty roles as blathering critics. Mostly we will redirect as fair psychological peace fare "zack attack" aimed at all four pie

segments, to put the Gangsters and wimps on the fly, and to win over the New Worlders and the SIMS. The crux of our zack attack is: 1) play on the anger of the middle class and poor, 2) play on the boredom and guilt feelings of the well-off, 3) play on the loneliness and fear of death of all. Old World fall, New World install.

"Fire is the devil's only friend"... we will fool and defeat Prince satan by converting his destructive weapons into our constructive tools. We will put brackets around {"she's not like us, he's different, bravery and change is involved, there's a limit there, it's untried, cannot, do not want"} properly label it "the imperceptible growth of deadening and deadly dull old worldish Status Quo protection," berate to the point of our frenzied outrage... cut through the yowled niggles-howling, break down the walls, and from the rubble we the rabble will rise and rear the renown New World.

Since the general civilization of mankind, I believe there are more instances of the abridgement of the freedom of the people by gradual and silent encroachment of those in power than by violent and sudden usurpations. - James Madison

Hence from the mid-2000s on, advancing Terraces of the New World will be realized. We will not bring perfection for there is no such thing as perfect art. But we will gain the truly good and noble Goal. We All will attain happiness.

But, we must start before it is too late.

Do we want all to enjoy comfort and felicity? Or do we want the disjoint convolutions of starvation, disease, poverty, repression, war and misery? The answer is not so obvious because as here discerned there are many malcontents who truly enjoy the second, current Old World Status Quo woe. But, now THAT heroism will rout paleo-pusillanimity, benevolence will drive out sadism, God will shout down satan and we will create the New World - a righteous, explainable society to pass on to our children and our own reborn souls.

YOU 25% ASPIRING NEW WORLDERS - WHO DO NOT FROWN AND SCOFF AT THE IDEA THAT "IMPOSSIBLE" MISSION CREATION OF THE NEW WORLD IS POSSIBLE IN OUR LIFETIMES - SEARCH YOUR MIND'S DEPTHS FOR THE ANSWERS AND WRITE THEM DOWN. Paint word images, strip the senses, touch raw nerves, speak with verve. Rouse the rancor in yourselves and the rabble. Show mettle, don't babble.

You twenty-five percent bristling, thorny Old Worlder deny-progress anti-convert controverts who prog through the bushy thistles of mind tyranny... you sad-song wrong ones who castigate the "mindless foolishness" of the New-paradigm phenomenon introduced in this prolegomenon, you who execrate actually going to the core source and curse solving fundamental social problems - go ahead and enjoy your fatuous snickering at those who join in the race to the New World. You will be disgraced... but forgiven, even be encouraged and employed to

scoff. While you still can, relish the quark relics and remnant symbols of the dark age Old World - the kings and queens, the emperors and empresses, poverty, slave occupation, starvation, war, paternalism, hate, racism, sexism and brain-weakening sexual preoccupation, and the modern norm form of war-creating tribalism - nationalism. Enjoy your misery. Have fun bowing down to prince satan's strongest tool - tyranny of the "live for today" creed zat breeds the Old World S-Q. Bow and kowtow now because soon dem will oll be swept away an' buried in an unrelenting undeniable ineluctable tide of strange-deny change.

And, laugh of your own laughs, we know THAT after clement Schaffner falls fast and touches down an' then the borderless one-language USA-model New World is cast, you giggling niggling Old Worlders will claim fame as creators of the Newfound widespread happiness and spiritual fulfillment. We will humor you... but we will remember the true malarkey-spewing Game-playing New-block laughing stocks: 無 mu-you. And we will always permit your freedom of speech but we'll never again sit an' allow you and dem cross leech bosses to sway the GAGA-tendency forty-five percent Silent Majority. The happy/loving, S-Q-eschewing New Worlders will forevermore stand up to you criers and expose your mournful abject folly and heart-of-heart desire for its telling reality - the dreadful dead yawning maw we totter at the precipice of... the rut to the defeat of Americanism and the destruction of God's only pluperfect works of art: humankind and free mind.

Schaffner = person? God? God son or daughter? "just a state of mind"?

Ultimately the Enlightenment aimed at nothing less than discovering the hidden forces in the moral world that moved and held people together, forces that could match the great eighteenth-century scientific discoveries of the hidden forces - gravity, magnetism, electricity, and energy - that operated in the physical world. - Wood

The beginning of the New World era, starting with "revolution" in America (or Russia or Iran?), is here. No trifle. The current awful dead Old-bent World era 無 mu mantra is on its death bed. Ravi Batra described Prabhat Sarkar's "law of social cycles":

Each era moves through five stages - infancy, youth, maturity, senility, and death. During infancy and senility, the ruling group faces many challenges and may be temporarily thrown out of power. But during youth and maturity, there is social and political stability, the government is relatively benevolent, and society evolves at a fast pace.

However, successive generations of the dominant class, having

been nurtured in luxury, turn oppressive and tyrannical. They care nothing for the rights of the people. New conflicts develop in society, and the fortunes of the rulers begin a long-term decline. Old age sets in and the era meets its end, frequently, though not always, by violent upheaval. Those opposing the ruling class then come to power and begin a new era, with different ideology and attitudes...

As wealth becomes concentrated, the living standard of the other three classes [Sarkar's four classes are wealth accumulators, intellectuals, warriors, and laborers] progressively declines, until there comes a time when society degenerates into two groups - the haves and the have-nots. So strong is the power of want and hunger that the distinctive features of the warrior's and intellectual's minds submit to the compulsions of survival.

It is during such dark days that the acquisitive-cum-laborer age comes into being. The resultant crime, poverty, and malaise eventually invite the revolt of the masses, who are led by the very warriors and intellectuals - now diminished to laborer ways of thinking - who had once embraced the acquisitive system with open arms. Sarkar calls this upheaval the "laborer revolution," one that occurs in the terminal phase of the acquisitive era, contributes to its end, and is brought about by disgruntled warriors and intellectuals.

The laborer revolution reflects not the fact that it is engineered by the laborer class, which is generally unable to lead, but the fact that it is masterminded by those reduced to the laborer's level of poverty. Few warriors and intellectuals then remain, for, forced to devote all their time to making a living, they have little time for other pursuits. The laborer revolution sweeps aside the influence of wealth. In the ensuing society, which may arise immediately or after a brief period of adjustment, power reverts to the warriors.

After the coming peaceful wealth-win "HAT revolution" upheaval America will provide the spark for the worldwide spread of by-Dem dreaded Americanism = New Worldism = free enterprise, democracy, economic & political transparency, cultural & ideological mixing, and positive can do - let's do it thinking. The intermediate Three Nations will be filled out by the nascent United States of Europe, and then last by the United States of Asia led by either Japan or Russia. Just as many once laughed at "tin can car" Japan, so too many now bleat at "tin-can-less" Russia. But out of the current anarchy torture - and blank sheet idealism - will be born perhaps the greatest of all New World creating cultures.

I see absolutely no reason why New Worldism weal will not spread and envelope the world. After oill, so many people swallowed Marxism. Marxism was pretended, artificial New Worldism, and the world found out at last

it's just hollow Old World regress. HAT is real and best - and it will be swallowed and digested.

THE UNITED STATES OF AMERICA WILL PROVIDE THE JUMP-START SPARK BY INVITING OTHER "OLD WORLD" COUNTRIES TO BECOME A PART OF IT AS NEW STATES. At the start these countries - still captured and spoliated by their bastard and bitch native Paternalists who endlessly pitch the good life but never deliver anything but riches to the Gangsters and simulated satisfiers (such as "national pride" and "all will be well if if if if if if") to the Majority - will decline. But soon in several of these kingdoms the makebate New Worlders will storm gate and take the summit of the hill, and then some parts of China will come to the New World side - becoming new U.S.A. states.

Then the current Old namby-pamby hopeless "it's no USE," soon-to-become "somebody New" (Germany-led? Germany-dominant?) hope-for-future United States of Europe (U.S.E.), and then the no-longer-hesitant Japan-led United States of Asia (U.S.S.) will follow suit and beckon Old World countries to join them as New states. And then, in the mid-21st century the Three Nations will concatenate to make the United States of the World... or simply and accurately, the New World.

We begin by doubtin' everythin' brainstormin' an' writin.' We step forward by rejectin' Old culture an' tradition an' worse - anythin' regress standin' in the way of progress - and we instead create best New culture and Nation. We proceed with our action by mountin' an all-out relentless world-encompass offensive. We will curse Old, take the airy hill summit, and coast to the COAST. Finally, near year 2550, the mature New World will have completely evolved, oll misery absolved, HAT unleashed from tenalp on this planet and rest of universe esrevinu. Stunning everyone. At THAT time we will at last allow ourselves to sink heads and hearts into THAT beckoning soft sweet mitt-pillow of hilarity - for there will no longer be any chance of backslide into the sorrowful snide dark Old World. At last HAT gasp, puzzle unraveled, Old-out-reamed, beat bodies frazzled, sleepy heads nuzzled, we'll thank God and dream. Although together here only once, thereafter physically separated, we'll be forever united through spirit reincarnated... we will dream on, for THAT be a New World never-ending story... for, gypsy girl, the alternative Old World end would surely be suffocation by the ugly cold hanging suspended curtain of "live for today," "give misery tomorrow" Status Quo conformity.

I rise to attack ... OLL THE INTELLIGENTSIA ELITES WHO DO NOT VOTE FOR AND PROMOTE NEW WORLDERS AND NEW WORLDISM ARE BLINDGANGER HACKS HOLDING THE WORLD BACK. Little do they know zat by making maintaining "stability" (of injustice, of S-Q) their main goal they are making a brittle culture that will suddenly mutiny (instability of justice) and hew to New.

I am every day so distressed when I pick up and look at bad books by so many of the present and past so-called "brilliant (but so often actually cad) philosophers" praised by the elite but excoriated by the rest of us. These proclaimed "genius" masters of the dialectic have always and will always define the problems accurately. But then, apparently afraid of actually solving the problems by stating the obvious solutions and then acting to implement and carry-out them (thereby eliminating the need for the vamping core and their adored Mensas?), the louts lose themselves and all of us in endless mindless mad labyrinths of nonsense excursus. E.g. here is a brilliant professor discussing the brilliant philosopher Leibniz, from Gilson and Langan's "Modern Philosophy":

And at the same time Leibniz finds himself with a good solution to the hoary problem of the "atoms." The world, unless it were composed of such "real" individual entities, would be a pure figment of the mind, divisible ad infinitum, devoid of any objective substantial reality. To this ancient atomistic stand Leibniz' "monads" add a revolutionary new element which keeps his atomism from having to be a materialism. Leibniz' doctrine is like a materialism in that it is absolutely monistic; but instead of explaining the highest and most spiritual phenomena by compounding it out of the lower, Leibniz extends the most spiritual principle, as we shall see, down to the lowest monad. Leibniz' doctrine is an inverted materialism.

Wut convoluted inane elucubration... and how graciously acceptable to the Mensa intelligentsia elite since it says nothing thereby not offendin' those who are most easily offended - their supporters - Gangster Joe and mistress Flo. These are our effete elitist neo-"liberals" (actually misery-S-Q-preserve conservatives), ever eager to avoid "looking bad," oh, so glad to abhor and ignore the neo-conservative (actually liberal) positive-active-simplifying atomic (positive, negative, neutral, quark) power philosophy of those few New who now truly are in the know. I think John Kenneth Galbraith told it best - "complexity and subjectivity are a protection against critics who can be said to have missed the point; they are even more serviceable as an alternative to the toil and frustration of difficult clarification. But they are also a disguise for truth - a substitute for a clear, stark [New] view of essentials."

Embellishment here provided by/from Sidney Blumenthal's "The Rise of the Counter-Establishment":

The last thing the liberals [actually hew-to-S-Q conservatives] expected was the rise of the conservatives [actually from-S-Q-liberating liberals]. Operating on the assumption that

their own intellectual authority was unassailable, it followed that conservatism was absurd. The notion of conservative intellectualism struck most as oxymoronic. Conservatives were ignored or disparaged as a fringe element. Certainly their shrill despair made no sense in an age of unspoken consensus. They were as out of place as the old Progressive historians. The liberals, for the most part, had become a curious species of conservative, outspoken defenders of the regime. They specialized in suspicion of radical rhetoric, and their favorite word was "complexity."

When I chance upon a reference to a "great philosopher" or "great philosophical idea" in my readings, I pounce on my encyclopedia and other reference books to look him/her/it up. Most of wot most of them say are convoluted meanderings, endless pointless-n-schmarmy contemplations of the metaphysics of the nature and actuality of reality, truth and goodness. And mostly better refused than perused. When I flip through pages of "great philosophy" I am reminded of a statistics course there in college I once signed up for and then dropped out of - I did not share the professor's fascination with findin' and excogitatin' the standard deviations of the standard deviations of standard deviations. Usually, however, in the bodies, behind all the philosophical "complexity and subjectivity" I find written bodacious kernels of truth, and tools for applyin' the kernels and findin' more kernels. I've been keepin' notes, here is some of my ken:

Confucius, China, 551BC-479BC. The natural goodness in people should be encouraged by social structures. Rulers must set a good example for their people. An environment of good morality is required - not just good laws, because those with bad morals pervert laws to their advantage. "There are three things of which the superior man stands in awe. He stands in awe of the ordinances of Heaven. He stands in awe of great men. He stands in awe of the words of sages." His teachings were not widely accepted until after his death.

Socrates, Greece, 469BC-399BC. Evil results from ignorance. No person purposely does wrong. Developed Socratic method of teaching: student asks teacher question and teacher guides student to answer with more questions. Two of his most well-known maxims: "Know thyself," and "Knowledge is virtue." Knowledgeable person -> virtuous life -> development of just government. Said, "truth is the measure of all things and only through truth can man become virtuous, pious, and just."

The university began in spirit from Socrates' contemptuous and insolent distancing of himself from the Athenian people, his refusal to accept any command from them to cease asking, "What is justice? What is knowledge? What is a god?" and hence doubting the common

opinions about such questions, and in his serious game (in the "Republic") of trying to impose the rule of philosophers on an unwilling people without respect for their "culture." - Bloom

Plato, Greece, 428BC-347BC. The human senses are not dependable as sources of knowledge, they mistake appearance for reality. In book 'Republic' describes his ideal state: Three classes of citizens. The rulers are the wisest and most virtuous and they rule by rational principle. The military class provides protection for the state. The worker class provides goods and services. Since greed is the cause of much evil in society, the ruler and military classes must not own property nor handle money, they must lead austere lives.

"There are jests which you would be ashamed to make yourself, and yet on the comic stage, or indeed in private, when you hear them, you are greatly amused by them, and are not at all disgusted at their unseemliness; - the case of pity is repeated; - there is a principle in human nature which is disposed to raise a laugh, and this which you once restrained by reason, because you were afraid of being thought a buffoon, is now let out again; and having stimulated the risible faculty at the theatre, you are betrayed unconsciously to yourself into playing the comic poet at home."

Renaissance [began in Italy in the late 1300s] Platonists interpreted Plato from a Christian perspective, and they believed that the Platonic search for truth about nature, about God's work, was but another aspect of the search for knowledge about God. The universities of Italy, as well as the independent academies founded in Italian cities, became centers where the Platonists taught, translated, and wrote commentaries about Plato's philosophy. These humanists tried to study the invisible world of Ideas and Forms that Plato claimed to be the essence of reality. Music and mathematics, they believed, provided contact with this universal, eternal, and unchanging higher reality. - Perry

Aristotle, Greece, 384BC-322BC. The goal of human life is happiness. Humans can achieve happiness through rational thought. Art should disclose universal meanings in nature, it should not be an exact representation of nature. "A king should take the advice of true philosophers. Then he would fill his reign with good deeds, not with good words." The dramatist should reveal truth to his audience in a way that evokes pity, fear and other strong emotions, resulting in catharsis and purification.

Niccolo Machiavelli, Italy, 1469-1527. Politics are an art and are disconnected from morality. "There is nothing more difficult to arrange, more doubtful of success, and more dangerous to carry through than

initiating changes in a state's constitution. The innovator makes enemies of all those who prospered under the old order, and only lukewarm support is forthcoming from those who would prosper under the new. Their support is lukewarm partly from fear of their adversaries, who have the existing laws on their side, and partly because men are generally incredulous, never really trusting new things unless they have tested them by experience."

Francis Bacon, England, 1561-1626. Question the authorities. New methods are needed for the advancement of learning. Investigation must start with observable facts, not with theories.

Thomas Hobbes, England, 1588-1679. Humans are naturally selfish and antisocial. They form governments for self-protection. Opposed the then-dominant belief that kings rule by divine (God's) will. Said in a "social contract" people invest power in an awesome, absolute sovereign (government) who must use the power to keep people from harming each other. People must obey the sovereign or fall into anarchy. The sovereign must protect the people or be overthrown and replaced. Attacked universities for their adherence to old teachings.

Rene Descartes, France, 1596-1650. Has been called the father of modern philosophy. "Doubt everything." God would not deceive us by leading us to clear and distinct ideas that are not true.

Benedictus Spinoza, Holland, 1632-1677. Humans are part of nature and are not special creations. God is the only substance and exists in all of nature. God is impersonal and has no special concern for individual humans. Love that humans have for God should be intellectual.

John Locke, England, 1632-1704. Ideas come from experience, they are not inborn. Government exists only by the will of the people and it may be overthrown by the governed. Church and state must be separate. Faith and morality are strictly religious matters. Happiness is the natural, greatest goal of humankind.

Locke's view that at birth the mind is blank, a clean slate, or tabula rasa, held two important implications. First, if human beings were not born with innate ideas, then they were not, as Christianity taught, inherently sinful. Second, a person's environment was the decisive force in shaping that person's character and intelligence. Nine of every ten men, wrote Locke, "are good or evil, useful or not, because of their education." Such a theory was eagerly received by the reform-minded philosophes, who preferred attributing wickedness to faulty institutions, improper rearing, and poor education - which could be remedied - rather than to a defective human nature. - Perry

Voltaire, France, 1694-1778. A champion of freedom of speech and religion. Favored rationalism over emotionalism. A prolific and widely read writer, he popularized the works of Locke and Bacon. Played a large role in the changes of public opinion that led to the French Revolution.

Jean-Jacques Rousseau, France, 1712-1778. Favored emotionalism over rationalism. The basic goodness of the people has been corrupted, in the name of "reason" and "progress," by the few cunning. The cunning take advantage of the inherent goodness of people to obtain power and wealth. Then the cunning secure their artificially superior positions by establishing social systems that they herald as "civilization." "Men are born free, and everywhere they are in chains." His championing of the sovereignty of the people was an inspiration to the revolutionaries of France.

Reason has become a prejudice for us. Rousseau noted that in his time many men were liberals who a century earlier would have been religious fanatics. He concluded that they were not really reasonable, but, rather, conformists. Reason transformed into prejudice is the worst form of prejudice, because reason is the only instrument for liberation from prejudice. - Bloom

Rousseau saw society as the corrupter of human beings who, left to their own devices, were inherently virtuous and freedom-loving. A wide spectrum of thinkers in the Enlightenment also viewed society if not as corrupting, then at least as needing constant reform. Some enlightened critics were prepared to work with those in power in an effort to bring about concrete social reforms. Other philosophes believed that the key to reform lay not in social and political institutions but in a change in mentality brought about by education and propaganda. - Perry

Immanuel Kant, Germany, 1724-1804. Humans can judge the morality of their actions by reasoning and then projecting out their potential effect on the welfare of all humans. "So act that you can will that the maxim of your conduct will become a universal law." "How would you like it if everyone did that?" "So act as always to treat humanity as an end and never as a means only." Felt that if people reasoned and projected before taking actions, they would act with virtue.

Georg Hegel, Germany, 1770-1831. In religion, truth is shrouded in imagery; in philosophy the shroud is removed and humankind can know everything and see God. Thinking proceeds through the "dialectic process" of positive thesis, negative antithesis repeated until synthesis is achieved. Progress throughout history has come as old ideas

are defeated by new ideas through the dialectic process. "The rational is the real," "the truth is the whole."

But Hegel made a mistake; he believed there could be a thoroughly rational God, one who conciliated the demands of culture and those of science. Yet somehow he also saw that this was not so when he said that the owl of Minerva flies at dusk, meaning that only when a culture is over can it be understood. Hegel's moment of understanding of the West coincided with its end. The West had been demythologized and had lost its power to inspire and its view of the future. Therefore, it is evident that its myths are what animates a culture, and the makers of myths are the makers of cultures and of man. - Bloom

Karl Marx, Germany, 1818-1883. Capitalism will end in crisis and the workers will revolt. A student of Hegel but he emphasized actions over ideas. Formulated "dialectical materialism": an upper dominant bourgeoisie owner class (thesis) develops social, political and religious institutions to build up and maintain its wealth and power. The lower dominated proletariat worker class (antithesis) is exploited by the bourgeoisie until it finally rises in revolt. A new, classless, abundant, economic and social order (synthesis) results.

Marx and Engels said that the class that controlled material production also controlled mental production, that is, the ideas held by the ruling class became the dominant ideas of society. These ideas, presented as laws of nature or moral and religious standards, were regarded as the truth by oppressor and oppressed alike. In reality, however, these ideas merely reflected the special economic interests of the ruling class. Thus, said Marx, bourgeois ideologists would insist that natural rights and laissez faire were laws of nature having universal validity. But these "laws" were born of the needs of the bourgeoisie in its struggle to wrest power from an obsolete feudal regime and to protect its property from the state. Similarly, nineteenth-century slaveholders convinced themselves that slavery was morally right - that it had God's approval and was good for the slave. Slaveowners and capitalist employers alike may have defended their labor systems by citing universal principles that they thought were true, but in reality their systems rested on a simple economic consideration - slave labor was good for the pocketbook of the slaveowner, and wage labor was good in the same way for the capitalist. - Perry

Both Hegel and Marx believed that the evolution of human societies was not open-ended, but would end when mankind had achieved a form of society that satisfied its deepest and most fundamental longings. - Fukuyama

Friedrich Nietzsche, Germany, 1844-1900. A champion of intuitive thought and individualism - counter to the dominant thoughts of the time in favor of reason and democracy. All of humankind's great achievements derive from the proud courageous heroic dominating "will to power" of the individual.

A critic of all in Western civilization that frustrated will to power, e.g. Christianity - its emphasis on meekness, pity, and humility; and democracy - a herd-like movement that glorifies mediocrity. "The natural law of force should prevail in the universe. The weak deserve to serve, the strong deserve to rule. Somewhere on the Earth there is a nation which is just naturally superior and which should ruthlessly subdue the rest of mankind. Within that nation a single individual should rise up as the natural leader and dictator to rule over humanity because he is a superman."

Held that if Western civilization was to be saved from decadence, it must be transformed, liberating and allowing the Übermenschen to perform their heroic deeds. Lived the life of an ascetic, and wrote furiously until overcome with insanity in 1888. His writings received little notice until the time of his death.

... a bit agog... glasses fogged... pacing 'round... need to plop down... coffee cup's empty... thirst... slog upstairs for tea?... tooo... poooped... first must gather strength, sit slack... there... at short length, I'll be back... grope up... Heather, hope you will still be here or near...

... I'm back, cup down, yak facing front, I rear to grunt:
PEOPLE, MY PERSONAL PHILOSOPHY IS SIMPLE: I SAY LET'S END THE LISTENING TO THOSE PHILOSOPHASTERS WHO WASTE THEMSELVES AND EVERYONE DAILY WENDING AROUND IN CIRCLES PENNING PENSEE GLORIFYING FINDING QUESTIONS TO ANSWERS. I SAY RATHER THAN DALLY LET'S INSTEAD PLASTER DEM AND RALLY TO THE CHOSEN FEW BEST TRUE NEW WORLDER PHILOSOPHERS WHO CUT TO THE QUICK AND ANSWER THE QUESTIONS. WE WILL CEASE THE STICKY LAUGHING HOLD OF THE QUISLING NON-AMERICAN SICK QUESTIONING OLD WORLDEES AND SLICK SHAPELESS FORM MONOPOLISTS. WE WILL CAST THE NEW WORLD FOUNDATION AND CREATE THREE NATIONS THEN UNFURL THE HAT FLAG OF THE BORDERLESS ONE-LANGUAGE UNITED STATES OF THE WORLD... WHERE WE WILL HAT LAST HAVE A GUARANTEED INCOME, ENJOY HEALTH AND PEACE, BE HAPPY, AND HAVE FREEDOM... INCLUDING FREEDOM TO DALLY WITH THE PHILOSOPHASTERS. When finally there, when world is ruled by Herrschaften masters, those who suppose there is some glory and sophistication in penury and misery will simply refuse to accept their CSD share.

No, New Worldism is not "New World Order." I hear so often certain politicians mention the phrase "New World Order." But when asked what

they see the coming New World Order to be - more nebulous perorations. The only thing of substance I can discern about the New World Order is it is based on mediation by the United Nations. But, since the UN is intrinsically a Status-Quo-monopolists-Old Worlders-tribal-facing-fences-enforcing organization, this new-to-UN-view will not do. From Mayer's "The Diplomats":

In the modern system of international relations, then, a spurious "national interest" is forced by the United Nations in parts of the globe to which such an interest cannot remotely reach, and a highly abstract [complicated], political-science approach to the world's disputes is encouraged everywhere. The question of what any nation's real interests are in any given situation may not even be asked, for fear it will be answered, and the asserted or sought "world order" will simply evaporate, like Klingsor's garden. The leaders of East Africa stand shoulder to shoulder with the Arabs whose fathers enslaved their fathers and whose policies in OPEC are impoverishing their children.

..."Look, said S. Rajaratnam, then Foreign Minister of Singapore, a former journalist, a little world-weary, very savvy. "All I want to know is - if we vote this way, what are the consequences? If we vote that way, what are the consequences? This is how I make my policy. The rights and wrongs of the matter will make interesting reading, but not to decide my policy."

Persiffling on-sideline-content HATter first-class philosophers lead/fashion public opinion; maquillaged on-stage-intent chatterer second-class politicians concede/acquiesce to, or at best coalesce, zat/tHAT. Hence Schopher New Worlders will think, ask those questions about wHAT the citizens' real interests be, and they find and force implementation of answers in All Territories... the consequences will be the rightings of wrongs. We will at first pay lip service to the UN... but diligently work around and soon eliminate the need for the Un-Necessary, which by design sinks ship and blocks up the hall.

Newish young people, cowed by the ample loud laughing herding "nerd"-labeling crowd of misfits zat persist in our midst, mustn't allow themselves to lower gaze and join in the dead wimpish reclining, crying and complaining about their and the land's imagined and real maladies. You'll instead turn limpid eyes skyward an' bound forward round to lead and then coast to COAST. My come-undone generation and the prior ones have had vague whimpered excuses - "the required communications and transportation technologies are not yet developed." Sheeeesh.

Well, we have 'em now. Well, let's hear your some/many deft 無mu

should-would-could limp foolish mewled excuses... any others besides continued daft recitations of your impish fears of being booed and branded "uncool" by dem legions of yuk-it-up stuck-up penury-causin' putrefactive negative they-misery-need ...then... we-all-bleed demons? My lethargic generation has been conditioned to conjure hard to invent lardy pallid "valid" excuses, to circumvent nature and the Creator... what (wut?) about this generation? Sie betreten feuertrunken?

True always and especially today - the only things that can bind an' defeat you be your own mind and feet. Need wondering/wandering and not lagging/dragging brain/boot heels.

Education on the decline? Whine?-no, wHAT?-yo. Our neglected children and all teenagers do not need mo' superstitions/religions spoken, chapel bells broken, mask an' blanket problems with Old-daze diversions "sage" preachers. They needn't be given additional surreal sick lessons on petting an' intellectual conflict-nyetting by lax back-scratch tribal-condition-us- an'-U.S.-nation simp "new age" teachers. And their schools definitely do not need more tax moola (per student) which nowadays seems mostly misspent on preparing their charges for the trials, woes an' tribulations of teen an' preteen dating an' pool-side protected non-procreation (reflected in most of their TV shows). And teenagers certainly don't need no mo' naive in-vogue non-deep "study 'til late to improve yourself and save the world" (girl, to imbue you for blue go-straight-jacket servitude to the good ol' Newzies-eschew mildewy SQ status-quo("save" = keep as is?)) goofy platitudes.

I ask you: study in vain forlorn bereft wut?

I answer: dudes, simply estudio volitive alembic New-reign/morn bereit THAT.

WHAT YOUNGSTERS NEED IS ENGAGEMENT IN NEW WORLDISH HAT ACTIVITIES - WORK TO SPREAD AMERICANISM OVER CONTINENTS (not to "be in touch with my own feelings"-decadent). Wearing school uniforms to their Newly formed HAT Clubs, they will learn Spanish (or whatever the New World common language turns out to be) and all of New Worldism (spelled out here), help immigrant families, and write their New World "save the world" philosophical novels. By wearing the hat, banner and band of these HAT clubs they will learn what to do, how to do HAT, be motivated to do it, and then they will do THAT. Dead sands >-turn-> living lands.

"Teenagers have everything, including virtual license for sexual promiscuity, how dare they complain of boredom!" so many dumb parents prate. Our barren lost-in-space youths are being betrayed by we who have come before them - who fail to provide the strength of leadership and sthenia our seedlings seek. Instead, we looming parents abuse, distract, and disgrace them, make off-track excuses, and snicker at culture-creating simplifiers and problem-solvers. Youngsters, nor any of us, will not be happy if society continues to only offer the inner concentric circle of material and tactile satisfiers. For many, sex -qua-sex is only a pleasant bodily function, and can be likened to the need

to use the bathroom. For others, like alcohol, sex is at best only an awful simulated spiritual fulfiller. Sex must bring men and women together to ponder and venerate the methods and results of the vital natal New World. Sex must build us up and connect us to HAT, not distract us and shatter that. Sex must not be free but rather must free, inspire and create boy & girl newpies and the fine final New World. Sex must not be rap-tacky, degrade, toom minds, cause abortions and AIDS, create reams of material for sad songs and mad Hollywood (misery is hugely profitable) movies... and trap us oll in the emotional lusty - truly-fulfilling-sex-dearth - wrong viral fatal Old World. Our scions are sighing.

We must face reality. Overindulgence, engaging in sex for its own HAT-less sake alone, results in deprivation of sight of New Worldism spiritualism at worst, and physical and mental stultification at least. Even the threat of AIDS, the most tortuous way to end Earthly existence, has proven ineffective in putting sex into its proper perspective. The sexy allurement of zexy and prospering New Worldism will be hailed now zat the sex-cutting punishment of Old Worldism and AIDS has failed.

The young must be taught to discipline themselves and avoid the trap of sexual preoccupation. Parents are trying to push a string when they say "don't do it." Love, family and New Worldism are the spiritual fulfillers, not sex, not alcohol, not drugs, not material possessions. As Old Worlder and wimped SIMS parents and pop media would have it, "indulge yourself, hurt yourself, hollow yourself out. Zat's life isn't it? Life goes on. You must enjoy feeling sorry for yourself, relish being felt sorry for, and we must delight in feeling sorry for you." To these, New life without the misery caused by sexual mind tyranny would be the ultimate true misery. (And overcoming sexy emotion with zexy inspiration will be a key to our beating down the Minority and leading 'round the Majority.) Flaunting their excesses and ever wanting complicated lives, the New World-refusing good ole guys and gals enjoy and desire being caught in the act. Those guys will be indulged and zack-attacked - for they oll are depraved, they oll stand in the doorway and block up the hall. I say the sour dead monopoly track Jacks and Jills will be hatted and suspended up out of the way.

HAPPINESS WILL ONLY BE ACHIEVED IN THE SWEATING GRUNTING HEAVING THRUSTING STRUGGLE TO REACH THE OUTER CIRCLE LIMIT OF SPIRIT-FULFILL. THE KEY TO SPIRITUAL FULFILLMENT IS THE GOD-PLEASING BUSTING OF THE UGLY OLD WORLD AND THE BUILDING OF GILDED REALM AS HE INTENDED IT - THE NEW WORLD. The young and the younger-than-yesterday will -turn- and survey the hypocrisy, poverty, pervading injustice and bad living conditions... then -turn- and blame everythin' on the "Gang of Old"... then -turn- and raise "makebate" New World Party candidates to power. The cowering Old World Party's swilling good ole' boy churl sinecures and adoring flaks incessantly yak "we must not offend tender sensibilities, we need to get back in touch with feelings, we must endlessly analyze, nothing is THAT

simple, we must have the courage to (talk about but avoid) change (I encourage you to give me your change)... Our New World Party will refrain from wining, whining and lame complaining, will spin 'round and win ground, will show us how to do HAT, and will finally lead U.S. in actually doing THAT.

Again, we will let history instruct us, not let it bind us. We need not historical evidence nor endless proof for all that New Worldism stands for and fights against, although much will be provided between these covers. Everyday events, experience, and non-hack writers yield sufficient backing and foundation-casting. Look for signs in the streets. History instructs us THAT communications and understanding foment progress, prosperity and peace. So, why not work to have a common language, common culture-core, and be free of borders? The scourge-of-Earth anti-propriety pro-Old World culture-and-tradition-society jerks chant, "many languages and nations give color to life." New Worlders say "everyone in this place can tell you to your face... it never works." The reality: the language/nationality cornucopia keeps New Worlders and SIMS apart and poor, Gangsters in charge and wealthy, and Old Worlders shedding tears in their tea as they "this is our fate, we must bear it"-cry. 70% want their try at HAT Utopia.

Since all of the HAT creed is intuitively and logically plain to the perspicacious, copious volumes of historical evidence are not needed. But there is plenty:

In reaction against a disputed presidential election, in which the United States interfered, a young Nicaraguan military officer, Augusto Sandino, rebelled in 1927 and took to the hills. For the next five years, he waged guerrilla war against both U.S. forces and the National Guard. A cultivated man from a wealthy family, Sandino had acquired his anti-Americanism while working for U.S. companies. He became a folk hero.

The U.S. Marines could not find him or his followers among the peasants, and the Marines' bombing of peasant villages simply increased their support for him. Partly because of the Depression, partly to be in a better position to denounce the Japanese aggression of 1931 in Manchuria, the United States finally withdrew from Nicaragua, arranging for a presidential election to be held. Having promised to negotiate after the Marines left, Sandino emerged to meet the new president. After one such meeting, the National Guard commander, General Anastasio Somoza, had Sandino shot.

Somoza, his family, and the National Guard dominated Nicaragua for the next forty years. Educated in the United States, enthusiastic for all things American, and married into a Nicaraguan family of elite status, Somoza would stop at nothing to reach the

presidency. In 1937, he seized the office, holding it until his death in 1956. Thereafter, his two sons took over.

In Managua stood the presidential palace, with the much-used torture chamber in its basement and the U.S. embassy next door. Eventually the Somozas and their cronies owned a fourth of the country's farmland. The government was blatantly a system to enrich the oligarchy, not to develop the country. U.S. officials were well aware of the corruption and occasionally lectured Somoza about it.

But on balance, the Somozas' willingness to cooperate with the United States and their loud anti-communism made them too useful to give up. During the Alliance for Progress, Nicaragua received large amounts of aid, even though it was known that the required plans for reform were not implemented, and the money was going into private pockets. After the devastating earthquake of 1972, the Nicaraguan treasury could account for only half the U.S. aid funds, but National Guard officers were seen profiteering in emergency medical supplies, while the Somozas and their intimates made huge profits out of reconstruction. - Findley

Realism treats nation-states like billiard balls, whose internal contents, hidden by opaque shells, are irrelevant in predicting their behavior. The science of international politics does not require knowledge of those insides. One needs only to understand the mechanical laws of physics governing their interaction: how bouncing a ball off one cushion will leave it ricocheting at a complementary angle, or how the energy of one ball becomes differentially imparted to the two balls it strikes simultaneously. International politics, then, is not about the interaction of complex and historically developing human societies, nor are wars about clashes of values. Under the "billiard ball" approach, the slender knowledge of whether an international system is bipolar or multipolar is sufficient to determine the likelihood of peace or war. - Fukuyama

Fundamentally, most people, the 70% Majority, do not want the nationalism, many languages, various racial groups, and diverse religions "realism" game-playing whose colors and shades separate, imprison and impoverish them and empower the Monopolists and their good-looking Old Worlder protectors. What the Majority wants is dignity, peace, good health, good jobs, good income, and God - the Better Way, laissez-aller. What the Majority wants is the tastey real reality of outer circle spiritualism, happiness, and self-actualization, not to stop and be trapped in the tasteless surreal reality inner vapid emotion circle of "in touch with feelings" and being "different." People can be happy with few or with many material possessions, so why not many? Materialism helps, but it does not consummate. WHAT THE MAJORITY WANTS

THIS TIME IS HAT, THE NEW PARADIGM OF NEW WORLDISM.

It is said it is easy for the young to learn new languages: they will show the way by leading us in learning and spreading the universal tongue. Then Nicaragua will progress from safe operating zone playground for the Rothchild money-loving rich to new state of the transparent, child-doth-love, New World Party-run U.S.A. state-gatherin' desideratum.

The fools' gold is "if if if if if" and "but but but." The real gold is "let's do THAT." Let us not let the laughing Old Worlders, dem blue anti-New pols and their billiard-playing adulation-seeking jet-setting hack lackey backers enforce the multitude-of-nations SQ, and gut and murder the miners. And above all let us not let the foreground black limousine riding pseudo-members of the dead old "Grand Old Party" prevent its necessary transformation into the living Grand New Party. We will be energized by foresight, nerve and verve - not laugh at HAT... snickering is the duty of the laughs section Old Worlders. We will be scorned bright-colored well-adorned bold newzies who cull, zack-attack, scold, score, flagellate and collar scared scarred dull Old Patsies. When finally the "sacred" Queen and King have lain down thorny crowns, we will run round and round-off the mind tyranny squares and win over all the SIMS to form the 70% Majority... and soon thereafter win the healthy wealthy peaceful happy New World.

Soon - speaking of the post-downlooking King miss American Pie America - all in the current U.S.A. and all around the world will say "this is a place where we want to live, that is a state we want to pattern ours after." The noble Herrschaften will zack-slam those who oppose, but they'll always turn 'round an' offer some return. The noble Herrschaften HAT Party in Japan will politely convince their toomed crybaby womb-clinging small farmers to give up their monopoly on rice supply in Japan - because at the same time they will promise sham-free shame-free yakuza-free world-leading government at last... and a Citizens Shareholder Dividend in the same amount as the former subsidy, for everyone - not just the farmers. HAT, America, and all be fast forward, glory, clean, and big... yakuza-led government and society be stall words, small, mar, gory, and schlampig.

The Prussian victory [over Austria in 1866, ending Austria's interference in affairs of the various German states which prevented unification of Germany] had a profound impact on political life within Prussia [northeast Germany]. Bismarck was the man of the hour, the great hero who had extended Prussia's power. Most liberals forgave Bismarck for his authoritarian handling of parliament. The liberal press that had previously

denounced Bismarck for running roughshod over the constitution embraced him as a hero. Prussians were urged to concentrate on the glorious tasks [unification of Germany (world)] ahead and to put aside the constitutional struggle, which in contrast appeared petty and insignificant...

The Franco-Prussian War completed the unification of Germany. On January 18, 1871, at Versailles, the German princes granted the title of German Kaiser (emperor) to William I. A powerful nation had arisen in central Europe. Its people were educated, disciplined, and efficient; its industries and commerce were rapidly expanding; its army was the finest in Europe. Vigorous, confident, and intensely nationalistic, the new German Empire would be eager to play a greater role in world affairs. No nation in Europe was a match for the new Germany. - Perry

Transformation from Old to New, from undercurrents to current, under-surface doubt-percolation to on-face floccinaucinihilipilification. The New World Period will be the next era after the Chimes of Freedom have drowned and swept away the Bells of Rhymney. As a result of constant progression and periodic transformation (inspired in big part by the constant harping and laughing of the fringe Democrat-Old World Party), the Grand Republican-New World Party, America, and New Worldism will stride to hegemony, strew money, and lead all through the coming millennium. We have already taken the first, lurching, infant steps. The following is from Lineberry's "Government In America":

1800 - 1848: The Jeffersonian-Jacksonian era of Democratic dominance.

Federalist/Whig Party: Federalists disappeared shortly after 1800, giving way to an "era of good feelings," in which the Democrats won everything in sight. Federalists did, however, retain control of the judiciary through John Marshall. The short-lived Whig party succeeded several times in capturing the presidency, partly because of its strategy of nominating popular war heroes.

Democratic Party: The Democratic party (then the "Democratic-Republican party") was dominated first by Jeffersonian principles, appealing to what Jefferson called "yeoman farmers." Jackson later broadened the party's base to include westerners and even the new urban workers. But it was also the southern party, closely identified with slavery and the southern agricultural system. That proved to be its undoing.

1848 - 1874: Transition period

1874 - 1920: The post-Civil War and early industrial era of Republican dominance.

Republican Party: From the end of the Civil War to the Great Depression, the Republicans managed to forge an almost unbeatable coalition. Union veterans, industrialists, urban workers, and blacks were the backbone. The elections of 1892 and 1896 solidified the Republican majority, tightening its hold on urban workers. Democrats thereafter won only the elections of 1912, in which the Republicans were split, and 1916, in which the popular incumbent Wilson was re-elected.

Democratic Party: Stained with the image of their pro-southern stand before the Civil War, the Democrats thereafter were condemned to minority status, electing only two presidents, Cleveland and Wilson, from the Civil War until 1932. The Democrats were the party of many small farmers, white southerners, and of some of the newly arriving immigrant groups.

1920 - 1940: Transition period

1940 - [1992]: The New Deal and post-New Deal era of Democratic dominance.

Republican Party: Labeled in the early part of this era the "party of depression" (because Republicans had held the office of president for a decade when the Depression struck), the Republicans have remained the minority party, especially at subpresidential levels. They depend heavily on the white, Protestant vote, on suburbanites, Midwestern farmers, and business interests. But twice during this Democratic era - once with popular war hero Dwight Eisenhower and once with Richard Nixon and Gerald Ford - the presidency was theirs, for eight years running. And a third Republican presidency, that of Ronald Reagan, might well signal the end of this era of Democratic dominance.

Democratic Party: The elections of 1928 and 1932 saw urban workers, blacks, and Catholic immigrant groups move into the Democratic camp. Franklin D. Roosevelt forged a "New Deal" coalition depending on those groups plus a heavy dose of liberal intellectuals. Emphasizing an activist federal government, Democratic presidents Roosevelt, Truman, Kennedy, Johnson, and Carter all used the same coalition to get elected. Cracks in the coalition, though, constantly threatened Democratic dominance.

And here I will project into the future:

1992 - 2012: Transition period

2012 - 3000: The Germane Millennium of New World Party omnipotence.

New World Party: Rises to dominance after transformation from the

Republican Party. Hegemony spreads around the world. Leads in formation of United States of the World in 2050, and full realization of the New World in 2550.

Democratic Party: Labeled the "Old World Party," HAT proved to be its undoing.

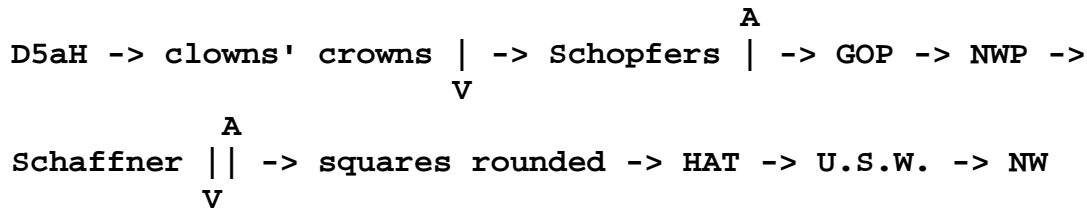

From Wood:

Destroying the ligaments of patronage and kinship that had held the old monarchical society together was only half the radicalism of the republican revolution. Something else would have to be put in place of these ancient social ties, or American society would simply fall apart. The first steps in constructing a new republican society were to enlighten the people and to change the nature of authority. Not only would the culture have to be republicanized, but all superior-subordinate relationships would necessarily change. If parents and masters were kind and caring, children and servants would naturally obey. If the political rulers were men of merit and talent and governed only in the public interest, they would naturally command the affection and respect of the people, and the crises of authority bedeviling American society would end.

Love and gratitude would replace fear and favor as social adhesives.

We'll avert the berserkers' "Bells of Rhymney" with the alert miners' "Chimes of Freedom," and assert the answer, the HAT formula for the 2050 formation of the United States of the World:

As we can see, all depends on you gypsy girl. If you believe HAT world-view, it's true.

Ayn Rand orated:

The academia jet-set coalition is attempting to tame the American character by the deliberate breeding of helplessness and resignation... Observe how noisily the modern intellectuals are seeking solutions for problems - and how swiftly they blank out the existence of any theory or idea, past or present, that offers the lead to a solution. Observe that these modern relativists - with their credo of intellectual tolerance, of the open mind, of the anti-absolute - turn into howling dogmatists to denounce

anyone who claims to possess knowledge. Observe that they tolerate anything, except certainty - and approve of anything, except values. Observe that they profess to love mankind, and drool with sympathy over any literary study of murderers, dipsomaniacs, drug addicts and psychotics, over any presentation of their loved object's depravity - and scream with anger when anyone dares to claim that man is not depraved. Observe that they profess to be moved by compassion for human suffering - and close their ears indignantly to any suggestion that man does not have to suffer.

This generation's college students will be riled, not mild; they will write, not be erased. They will not cower and allow themselves to be skewered - like the last lost-in-space generation college students were - by "avoid effective solutions at all costs, they threaten my position and ego" scientific-delirium-madness-spewing, sexism and sexually obsessed professors, thereby being forced to fess up and back off, bury their true golden wild-eyed New Republicanism under layers of memes' mold, marry cry-eyed Democratism of Old, and embrace euphemistic benign New-World-negating Old-World-perpetuating half-measures in designing their college commencement speeches (as was Hilliary pilloried in 1969). Omen now recalling... she spoke: "You and I must be free not to save the world in a glorious crusade, but to practice with all the skill of our being the art of making possible." (If my repetition of this quotation is erroneous it's not my fault, the fault lies with the belying print media. Every time I read this bit in newspapers, magazines, and books it is writ differently. I'll rest assured only when I hear the real version directly from her own lips. Not only do they slip and misquote her, but I find absolutely no basis for their resolute disputatiousness toward her. Examples of the insults, misuse and injury are their printing of unflattering pictures (jealous female editors really resent her Nellie-good looks), calling her "middle aged" (she isn't, she's younger-than-yesterday), and the harming editing out of exemplary never-heard parts of Hilliary's interviews (where she presents new worldish views)).

This foundation-in-place generation college students will not submit to the oodles of pure-poor blood kiyoodle poodle Harvard U. rube professor tutors who ferhoodle (and canoodle female) students by spewing looney moody crude rude "rationality" arguments as an integument for the incognizant lewd brooding in their noodles, and who mewl: "New Worldism is too logical and true, my mental-gyration-glorifying, my catachresis-emphasis, my misery-roiling, my doodling philosophic tools, my life's moil, will all be soiled, discredited, discalced, discarded, defrocked, mocked, dead, and done in if the HAT is fed and donned." Consumed and on-head indeed. Instead, the New seedling and leaf students boodles will succeed, enjoin, sic the HAT rubric block on the few hall-blocking blockheads, join in the glorious New stupendous crusade...

y manumit el mundo.

Every talent must unfold itself in fighting: that is the command of Hellenic popular pedagogy; whereas modern educators dread nothing more than the unleashing of so-called ambition.

In a sense there are no "American ideas." Ideas that originate in the U.S.A. actually come from people from around the world who have recently relocated to and mixed in the U.S.A. We owe everything good to free movement of people and mixing of nationalities and ideas, not "poor-pure-blood" racial and national superiority. The poorblood-faction prefers social stratification, in-group dominance, and their resulting cherished super ego satisfaction. Mixed bloods prefer more mixing. THE ONLY REAL "AMERICAN IDEAL" IS MIXING OF RACES, NATIONALITIES AND IDEAS ON A LARGE SCALE. Therefore, those who dwell on nationalism and racism in effect trample on the American Ideal and bedabble what is real.

Positive thinking = logical thinking. But we are being conditioned by Old Worlders to abhor it in our current fashionably old-fashioned wimpish negative old world. Negative thinking is currently fashionable. It now is fashionable to be a cowed paternalist-socialist Democrat, and unfashionable (but in reality fashion-setting) to be a loud libertarian Republican. It has been fashionable to "raise taxes to help the impoverished" - which in practice impoverishes all but the social arbiters. It has been unfashionable to try to reduce the size of government and end government-protected special interest monopoly schemes and make tax dollars go farther. It is fashionable to give attention to those who are "different" in perverted and destructive ways. It is unfashionable to give attention to those who are "different" in a constructive way - positive New Worlders. It is currently fashionable to make endlessly circling "something is wrong we have to do something, something is wrong we have to do something" complaints and criticisms of flawed government and society, but unfashionable to make/take cut-to-the-quick and make-it-stick wide-view suggestions/actions on-how/where we might actually finally solve the problems.

It has been fashionable for the conventional politicians in U.S.A. government to help corrupt governments of other countries maintain their realm by sending money weapons and advisors. But it is unfashionable to the point of presently being unspeakable, for politicians to take the first step of embracing New Worldism and helping our own ravaged citizens and children.

All and the (HAT'um) hall have been abandoned to the "wild instincts" of Monoplist and Old Worllder dominated "democracy" and "free

enterprise":

Democracy has consequently been abandoned to its wild instincts, and it has grown up like those children who have no parental guidance, who receive their education in the public streets, and who are acquainted only with the vices and wretchedness of society. Its existence was seemingly unknown when suddenly it acquired supreme power. All then servilely submitted to its caprices; it was worshipped as the idol of strength; and when afterwards it was enfeebled by its own excesses, the legislator conceived the rash project of destroying it, instead of instructing it and correcting its vices. - Alexis de Tocqueville

After positive-active-simplifying New Worlders have assumed dominance and have instructed all, tamed wild instincts, and have corrected vices here in the U.S.A., then the second step will be taken - we will propose the New World track to other countries - help others and then encourage them to become new states of the U.S.A., U.S. of Europe, and U.S. of Asia... but the U.S.A. must lead... HAT'UM LEBENSRAUM WILL BE GAINED FOR THE U.S.A. BY 1) ANNOUNCING OUR EMBRACE OF HAT AND GOAL OF U.S. of the World, 2) SENDING IN FROM EIGHT MILES HIGH AIR WAVES OF U.S.A. PILOTS AND PARATROOPS, 3) OFFERING THE CHANCE FOR THAT NEWLY-HATTED COUNTRY TO VOTE TO BECOME PART OF THE U.S.A GROUP.

[In 1815-1848 France] the political philosophy of the bourgeoisie [middle class] was most commonly liberalism. While conservatives [Monopolists and Old Worlders] sought to strengthen the foundations of traditional society, which had been severely shaken in the period of the French Revolution and Napoleon, liberals [New Worlders] wanted to alter the status quo and to carry out the promise of the Enlightenment and the French Revolution. Conservatives extolled the community, but liberals gave central concern to individual freedom. Conservatives tried to preserve a social hierarchy based on inherited aristocracy, but liberals insisted that a person's value was measured not by birth but by achievement. Conservatives held that the state rests on tradition, but liberals sought the rational state in which political institutions and procedures were based on intelligible principles. Conservatives wanted individuals, inherently evil, to obey their betters. Liberals, on the other hand, had confidence in the capacity of individuals to control their own lives. - Perry

I stand to whoop: THERE CAN BE NO DOUBT OF THE PRIMACY OF THE INDIVIDUAL OVER THE GROUP. There can be no doubt zat intrusion on personal privacy is taboo. Progress of modern civilization is stifled when the millions are valued over the person. If such group-oriented inventiveness-abjure Middle Kingdom tribes and cultures are to survive, imported modern technology and philosophical thought must be sought, bought and brought. If the future world's common culture turns out to be group-oriented-programmed-dictated, history has to all of us instructed the "shogun" Gangsters will confiscate and melt down first our guns then our modern appliances and shape them into swords for the overlords. Furthermore, the pogroms begin in earnest the moment no one name can be blamed for the strange Game.

THE INDIVIDUAL WILL NOT SERVE THE GROUP, BUT RATHER THE GROUP WILL SERVE THE INDIVIDUAL. IT IS THE SOUR STRUCTURE OF OUR POLITICAL INSTITUTIONS ZAT IS TO BE SHAMED FOR OLL OUR SOCIAL SHORTFALLS. If a person wants to have a rich, happy life, but was not endowed with noble birth, intelligence, drive or other profitable attributes - we cannot impute "he is poor because he doesn't try hard enough to get up off the floor." We must blame society, our institutions, our lack of leadership - blame everything on the Old hacks and monopolist Jacks please. But blaming is not enough, having one's back scratched feels swell... but the enjoyment is only ephemeral. We need grown-up HAT-ploy, we soon will no longer put up with Old boy toy. Real leaders, government, and society must present and allow to grow New goals and plans, motivate creative also-rans, and reward all in the land.

In the fully developed New World in year 2550 everyone from the time of birth will receive a yearly \$50,000 "Citizens Shareholder Dividend," to (only) come from the budget surplus of the profitable, efficient New World Party-run government. As stated this CSD will be started the first year of ascendancy of the New World Party, commencing with \$100 per person, and will grow as fast as allowed by the revitalized, anti-monopolized, transparent, fully communicating, efficient, competitive global economy and government. Those who can and want to work will earn many times this amount.

The New Worlders - led by the warrior young and all the younger-than-yesterday who do not say "tHAT's not the way we've always done it" - will form a New World Party (NWP, Newp) in all nations. The parties will be small at first but all will have firm HAT-norm convictions, starting either as a faction of an existing mainstream party or born separately as a new entity. In all countries (later states) all various parties will meld into only two parties - the ruling HAT-realizing Majority New World Party, and the rueing HAT-criticizing Minority Old World Party. FUNDAMENTALLY AND NATURALLY IN SOCIETY THERE ARE ONLY TWO POLITICAL PARTIES - THE NEW WORLD PARTY AND THE OLD WORLD PARTY.

The Newp's most apparent feature will be it will give warm reception, not cold shoulder rejection, to new faces and Status Quo disgracers. New Worlders in currently new worldish countries like the U.S.A. will find and encourage their kind "makebates" New Worlders in all old worldish countries to subdue their country's contrary-Patsies, remove walls and then enroll their countries as one of the Three Nations' New states.

I erect and eruct, WE MEMBER HATTERS OF THE NEW WORLD PARTY HERE IN THE U.S.A. WILL SUPPORT WITH UNDYING CONVICTION OUR OPPRESSED AND PERSECUTED BROTHER AND SISTER HATTERS IN NEIGHBORING STATES EVERYWHERE, SITUATION NO MATTER. We'll support not with passive gabby lecturing of local monopoly moguls, but with active grabbing replenishing replevin. Money is the Game and the public will claim.

The New World Party's central tenets will be free enterprise, democracy, cultural & ideological mixing, political & economic transparency, positive "can do, let's do it" thinking, invitation of countries to join the U.S.A. as new states, open immigration into the U.S.A., the Citizens Shareholder Dividend guaranteed income, and promotion of Spanish or English or German as the international language-common. More importantly we'll glorify miscegenation, and most importantly we'll force the formation of the U.S. of the World in year 2050, and the New World in year 2550. End of Old World curse will allow our fitting of HAT over whole universe.

New Worlders around the Earth will eschew mind tyranny dearth and the cartel of the S-Q Paternalists. First we win over New Worlder self-doubters, then the rest of the Silent Majority, forming the unshakable, unbreakable 70% Majority. We will assault the satan's helpers Monopolists and their satan's spell heart of old social evil - monopoly profit. We will spread New Worldism = Americanism = free enterprise, democracy, cultural & ideological mixing, economic & political transparency, and positive "can do - let's do it" thinking. We will help New Worlders in Old World countries to dump their corrupt wimp-pumped-up Gangster-run aristocracies and become New U.S.A. states, wealthy and free.

A despotic government only exists by its military power; if an outsider destroys that military power, he is forced by the necessity of the case to offer the vanquished society a new order in place of the old despotism. - John Stuart Mills

We will revive the American spirit of heroism which the "can't"-cant Status Quo Paternalists have labeled "opprobrium."

We will:

- 1) blat a Goal and Philosophy (HAT)
- 2) explain why THAT should be fought for and implemented
- 3) identify the barriers in the way of the Better Way and show how they can be blown away

4) present a plan of action and carry it through with conviction

- - - - -

Joy! Joy!
Oh joy, thou lovely spark of God,
daughter of Elysium.
We enter, drunk with fire.
Immortal goddess, thy holy shrine!
Thy magic doth unite once more
what custom has strictly set asunder.
All men shall be brothers
where thy gentle wing is spread.
Thy magic doth unite once more.
Happily, gladly as His suns speed
through the glorious plain of heaven.
Brothers, run your course.
Joyful as hero to victory,
like a hero to victory.
Brothers, run your course!

The real question: how will the New Worlders be ignited and excited to act - to heed the words of Schiller (as Beethoven did cite in his 9th Symphony), "Brothers, like heroes to victory, run your course"? Brothers, and of course sisters too. WOMEN, BEING PRE-DISPOSED TO FAMILY VALUES, DOUBTING AND INQUISITIVENESS, AND AGAINST BRUTE FORCE, ARE NATURAL FOREFRONT LEADERS IN THE ON-GOING ONSLAUGHT AGAINST, AND FINAL VICTORY OVER, TYRANNY OF THE OLD PATERNALIST STATUS QUO.

Fusty male Old Worlders have always sought to keep women in tow, in veiled robes, without the vote, without equal rights, slaves to housework out of sight, driving them to become musty underling dem dykes. As the 18th century philosopher Mary Wollstonecraft wrote "from the tyranny of man the greater part of female follies proceed."

These Patsies, insecure of their manliness and afraid of women (of WHAT they would do if they could) have always strived to protect their staid male-dominate society, to wall-off their monopoly-enforced positions, and to force misery-enjoyment of increased unemployment by winnowing out happiness-winning competition from half of all humankind. Although most women have always gone along and submitted to all this patronizing and paternalizing, many (most?) are natural or potential "I CAN" RealRepublican New Worlders, and some (more than men?) - New World leaders. The first non-coward benevolent pro-efficient-government liberty-protect Americanism-project "President of the New World" most likely will be a woman... but only if some will be among the first to dare look "out there" and "untoward" and come forward.

Thoughts are the preface for the written word. Written words are the

premise for the spoken word. The spoken word is the basis for action. And action brings us forward to their final katabasis and our New World-formation solution - the fulfilling of God's will... disarmed by wildcat charms... Hill summarily surmounted, rod hammered, ecstatic fit, wick lit, scotopia turned Utopia... the fetus of inspiration will be born during our accepting the luxury of the said coming New World and our rejecting the penury of the dead dumb numbing Old World - when New World man and woman lie side-by-side HATted heads together wide-eyed a-dither a-bed after zed found amanecer, world turns all around her.

- - - - -

Oh how I wish the time was ripe for the coming great orator New World Party other presidential candidate to strew his/her Old World-breeching nomination acceptance speech at the Republican -cum- New World Party national convention. Oh, how I long for the occasion to hear - within ten years? - him or her deliver - it:

How can I start... where do we begin... what can I say... what will we do...? I know it, I sense it, I see it in your eyes, I feel the energy and I share it with you...

We are gathered here for only one purpose. You know what it is, all Americans know what it is... and those few who oppose us know what it is... Young people and young souls in here, out there, and around the world know what we are here for and are watching... and impatiently waiting... .

...words fail me... (look down at notes and then Heaven-ward)... .

WE ARE HERE TO START DOWN THE TRACK TOWARD VICTORY AND TOWARD FINALLY GIVING AMERICANS WHAT THEY HAVE FOR SO LONG RAVED ABOUT AND CRAVED AFTER...

I want you to listen to this next phrase, have you heard it before? "Everyone in this place can tell you to your face... it never works."

The platitudes and perorations of our opponents never work. The mere words, smoke screens, and age-old, never-working schemes are wut the old worldish leaders of the other, misled, Democrat party want to patch up and continue.

Those old-boy programs never work, they are destroying Americanism and our nation in a slow strangled suffocation. The Old Worlders want to burn to death their own, and burn to death those they have fooled into following them, and burn to death us in this room, and burn to death everyone in the world, again and again and again. WILL WE LET THEM? (No.)

All we in the flock of true New Americans, in this room, throughout America, around the world... already know THE BLINDGANGER ARE WRONG AND WE ARE RIGHT. WE CAN DISMISS AND PUSH OFF THEIR AMISS "GOOD-LOOKING" PATCHWORK SCHEMES AS PERPETUAL, PARALYZING, POPPYCOCK.

Those who block and oppose us enjoy boring us and everyone... but I

don't. FLUFF AND PUFF IS NOT ENOUGH. The Old World Party Democrat leaders ring and ring, and tinkle and tinkle on and on for hours and hours... as Americanism sours.

We in the Republican New World Party bang chimes for only a few minutes, and we shut up... and then we go out to act, to make the wealthy, happy, peaceful, New World a fact.

Listen to me and face reality with me... the Old World Party Democrat leaders want to toom and doom all us in this room and throughout the world with the same Old tired so-dull-and-boring excuse-spouting negative inward-looking mind-set which is killing Americanism. WILL WE LET THEM DO IT? (No.)

WE CAN DISMISS AND TRY TO IGNORE THE OLD WORLDER BORES.

Can we dismiss and try to ignore the Old Worlder bores? (Yes.)

And now... I will make a plea that will rock and roll and shock the opposition leaders who wrongly oppose making the U.S.A. a New country. I plea to all of the star New Worlders who are currently out of place in the Democrat party, those who actually want the American Dream and not just promises of it. My plea is this: please join us here in the New World Party. We want all of you to join us... that is, we want all of you to join us except for the tiny whining misery-loving Minority, we have no place for them Dems. We say to you New Worlders currently out of place in the Democrat party: please come join us in the New World Party... LET'S WELCOME THEM. (Yea.)

Our newly admitted New Worlders have come to realize this fact: THE OLD WORLD DEMOCRAT LEADERSHIP HAS BEEN PROVEN TO BE GOOD FOR ONLY ONE THING - PROMISING US EVERYTHING AND THEN GIVING US NOTHING.

The good old boy Old World Party Democrat leadership wastes your and my and everyone's money and time. They now and will always stand for taking your dollars, spending most of it to improve their own good looks, and then giving you back tinkling little pocket change dimes. They get away with crimes.

You must agree with me when I shout out this certitude: EVERYONE IN THE OLD WORLD DEMOCRAT PARTY LEADERSHIP ARE AMERICANISM HATERS AND DESTROYERS BY DEFINITION - THEY OPPOSE US. THEIR PARTY IS NOT THE NEW WORLD PARTY THEREFORE IT MUST BE THE OLD WORLD PARTY. WE WILL NO LONGER ALLOW OLD-ENFORCE DICTATORSHIP OF MU D.C.-TATTER-SHIP. WE ENDORSE NEW-HATTER-SHIP.

We New Worlders are Americanism lovers, builders, promoters, and spreaders. What is "Americanism"? Shout it out with me: It is free enterprise, democracy, cultural & ideological mixing, economic & political transparency, and positive thinking - "we can do it, let's do it."

THE REPUBLICAN PARTY LEADERSHIP IS GOOD FOR TWO THINGS - TALKING THE COMMON SENSE OF AMERICANISM, AND GIVING AMERICANS HERE AND AROUND THE WORLD DOLLARS AND SENSE AND HEALTH AND HAPPINESS.

WE IN THE REPUBLICAN NEW WORLD PARTY ARE AMERICANISM LOVERS, BUILDERS,

PROMOTERS AND SPREADERS.

WE IN THE NEW WORLD PARTY HOLD THE KEYS TO AMERICANISM IN HERE, ITS FULL REALIZATION OUT THERE, AND ITS NECESSARY SPREAD EVERYWHERE.

NEW WORLDERS' PROGRESS AND HAPPINESS-SPREADING WILL DEFEAT OLD WORLDERS' ARROGANCE AND MISERY-MONGERING... As citizens of all states together... we will coast to the COAST. Hence... All... Terr... thank you God... and give us guidance... (shamble, shaking and knackered, from podium)...

As the rest of the world watches a decaying America grow sicker economically, more pessimistic politically, and weaker militarily, the world becomes a more dangerous place. The forces of terrorism and violence come to believe they can take risks with impunity. The forces of freedom and stability feel their power diminished by the absence of an effective United States.

- Newt Gingrich

I sit here with you in my basement study, at my brown wooden desk with articles clipped over the years from newspapers spread before me:

As I survey the malpais, I sit back and think about out loud: "What is the best way to expire the Mideast political quagmire? To wut will terrorism lead? Wut other similar or worse political/ economic disasters

loom in our future? How can we identify the real core causes of all these sores? Why the bandage-application instead of problem-solution? Where would all the money and productive effort go if we no longer needed military forces... spent on social welfare "proper use of condoms" programs?

I ASK YOU: Why did so many people accept and still do not fully reject communism? Will more capitalistic countries and advanced technologies mean bigger global populations and out-of-control environmental problems? Will racism and nationalism problems be abated, or exacerbated? Are we taking the right approaches to solve, or leaving left unsolved these problems? Why do we grin and bear these bugbears rather than bare and take care of them? I ANSWER: Our "leaders" don't really care about solving these problems. After all their lives are very brief, why not live for today and look forward to final Heaven relief? They don't really care about how their children and our children will make out, they are just easing their own consciences when discussing future scenarios.

I ASK YOU why do generation after generation of our choice "leaders" lose their ideals, mince words, cower, and become doited as they get older and rise to positions of social and political power? I ANSWER they surrender either to Gangsters who give them money, or to Old Worlders who convince them New Worldism is funny.

What is the journey through the journal open before you all about? Yes. To me, it is about my personal quest to find and confirm answers to these above questions.

It is about doubt, positive thinking and hope.

It is about saving the lives of starving children and unborn, soon-to-be-torn-out fetuses.

It is about preempting nuclear, chemical, biological, environmental Armageddon.

It is about winning good standards of living for the poor, outcast "misfit" non-conformists and mythoclasts.

It is about the formation of a borderless, one-language, global homogeneous New World where all humans will be healthy, peaceful, loving, and happy.

It is about precluding eventual totalitarian control of the world by "genius," conformist, complicating, S-Q-protecting Patsies.

It is about atomic personal and political philosophy. Differing viewpoints/ conclusions derived from and arrived at after observing/ living through the same facts/ experiences have to result from epistemological/ metaphysical matters and dimensions fundamental and axiomatic. Positive-negative, simplify-complicate, active-passive, create-follow.

It is about radicalism and revolution.

IT MENTIONS THE UNMENTIONABLE. THE AMERICAN DREAM IS BEING REAMED OUT AND DESTROYED FROM WITHIN BY INSIDIOUS OUTSIDER GANGSTERS AND THEIR GREEDY, WELL-PAID INFILTRATORS. IF LEFT TO RUN OUT THEIR WELL-LAIN SINFUL

COURSE, THEY WILL ROUT OUR HAT SCHEME OF LEADING EVERYONE IN THE WORLD OUT TO THE PEACEFUL AND PROSPEROUS NEW WORLD HORIZON. These yakuza-like Gangsters will instead enslave us non-conformist "barbarians," the New Worlders, who choose not to bow to and kiss the hands of their "grand" "Emperor" and their far-flung by-geisha-adored mercantilist overlord guys.

This tome is about my view as an average U.S.A. citizen of the world and its mess - and my brainstorm personal search for ways to redress. Here I want to talk to, with, for, and about you, and share ideas back-and-forth.

It is the between-the-lines "sublime New World is coming" mirth felt in my belly and sensed in the hearts of wandering and wondering souls around the girth of our precious, abused but still lovely common home - the Earth... hat'Er.

God bless Zig Ziglar. He - with all his preaching about positive thinking - has been a propitious inspiration to me. Here are some excerpts from one of his many volumes I have listened to while driving and lying in my room:

...It was during those still, quiet moments when George Washington at Valley Forge found the strength to build a nation... Yes, we do need those moments, we need them so that we might meditate, contemplate and pray...

There are going to be some people who are going to criticize you, but let me remind you that since the beginning of time nobody has ever erected a statue to a critic... There are a lot of people who are going to look at you and say "you're different..."

I believe health, wealth and happiness are the natural results of building a life on a solid foundation and taking certain steps to get the things which are available for us. There are a lot of people who are going to laugh at you, but let me simply say that it will be the little world that will be laughing at you. The little world laughed at Robert Fulton when he went steaming by on that steamship in the Hudson River... but the big world was gathered watching him as he made that historic journey downstream. The little world laughed but the big world was right there at Kitty Hawk North Carolina when the Wright brothers made that flight into space that changed not only the face of the globe, but bids to change the face of the universe.

The little world might laugh at you when you start on your journey. But I can absolutely guarantee it's going to be the big world who's going to be right there at the finish cheering you across when you reach the destination which they said you could

not reach. And let me remind you that what you get by reaching that destination will not be nearly so important... as what you will become by reaching that destination.

It is easy and Old-fashionable to be a chaotic line-item critic. The laughing Old Worlders even in America until now have fashioned social fashion and have taught us to expect and enjoy screams of agony. It is now a social crime but soon I know it will be New-fashion to seek far-reaching answers and solutions. You Newzies will be "leaders of fashion" and join the vanguard New Worlders in the search for, and implementation of, the answers. We will carry off the palm by sheer strength of belief and perseverance. We will start and lead in the formation of the divine New World during our lifetime.

God's will will be done, believe me. Why do you have this restless, odd, gnawing feeling of vacuousness and inadequacy? It is because you either controvert formation of the New World, or you do not overtly fight for it. When you think of all the Old World past present and future social maladies - look around you, perhaps into the mirror, and you'll know who caused these. When you think about remedies you will doubt everything, and then as a New Worlder adore, or as an Old Worlder abhor, New Worldism, and formation of the New World.

Religion is the true provider of spiritual fulfillment. The fray to bring forth and cement the clement Better Way will flame to a religious fervor and become a missionary endeavor. The "HATrack" religions will not only endlessly proffer spiritual weal - they will really provide it. For only when New, will God's progress win the final battle over Old satan regress and you and we all will be happy from the core to the skin.

Many of the familiar established Old religions will be tempted to make the error of attempting to equate New Worldism with sin, since it will compete as a source of spiritualism, choosing not to fully embrace their long ago twisted convoluted corrupted doctrines. Not even your religion is immune from the desire for monopoly profit, manifested by its war to denigrate and eliminate New potential competitors.

Lest I be remiss and not be completely honest with myself and you if only this once I must confess I feel anyone who admits he/she believes in any of these current musty Old religions is:

- 1- an uneducated/ unintelligent person
- 2- a negative/ emotional/ illogical person
- 3- a dishonest infidel, at best putting on a show for social/ conformist reason; at worst encouraging/ empowering Old-World/ monopoly prison

Some nonsensical common sense (Age of Reason book) from the Deist Thomas Paine:

I do not believe in the creed professed by the Jewish church, by the Roman church, by the Greek church, by the Turkish church, by the Protestant church, nor by any church that I know of.

My own mind is my own church.

All national institutions of churches, whether Jewish, Christian or Turkish, appear to me no other than human inventions, set up to terrify and enslave mankind, and monopolize power and profit.

I do not mean by this declaration to condemn those who believe otherwise; they have the same right to their belief as I have to mine. But it is necessary to the happiness of man that he be mentally faithful to himself. Infidelity does not consist in believing, or in disbelieving; it consists in professing to believe what he does not believe.

And Paine continued to explain:

Though it is not a direct article of the Christian system, that this world that we inhabit is the whole of the habitable creation, yet it is so worked up therewith, from what is called the Mosaic account of the Creation, the story of Eve and the apple, and the counterpart of that story, the death of the Son of God, that to believe otherwise, that is, to believe that God created a plurality of worlds, at least as numerous as what we call stars, renders the Christian system of faith at once little and ridiculous, and scatters it in the mind like feathers in the air. The two beliefs cannot be held together in the same mind, and he who thinks that he believes both, has thought but little of either.

From whence, then, could arise the solitary and strange conceit that the Almighty, who had millions of worlds equally dependent on his protection, should quit the care of all the rest, and come to die in our world, because, they say, one man and one woman had eaten an apple? And, on the other hand, are we to suppose that every world in the boundless creation had an Eve, an apple, a serpent, and a redeemer? In this case, the person who is irreverently called the Son of God, and sometimes God himself, would have nothing else to do than to travel from world to world, in an endless succession of deaths, with scarcely a momentary interval of life.

It has been by rejecting the evidence that the word or works of God in the creation afford to our senses, and the action of our reason upon that evidence, that so many wild and whimsical systems of faith and of religion have been fabricated and set up. There may be many systems of religion that, so far from being morally bad, are in many respects morally good; but there can be but ONE that is true; and that one necessarily must, as it ever will, be in all things consistent with the ever-existing word of God that we behold in his works.

NEW WORLDISM-EMBRACING ECONOMICS-THEORY-BASED RELIGION WILL EVOLVE. SINCE CORE SOCIAL PROBLEMS WILL REMAIN UNSOLVED THE QUESTION "ARE THE CHURCH BELLS TRULY BROKEN?" WILL BE "YES"-PROVEN. THEN ALL TRUE RELIGIONS WILL SHOW THEIR NOBLE FACE AND INCORPORATE THE NEW GLOBAL BETTER WAY. Somehow, some way, honesty will win over sanctimony.

As a result of the enormous pressures of responsibility weighing heavily upon a person, and the pressure of choices with their grave accompanying consequences, man experiences a sense of anxiety, for it is a dreadful thought for him to come to the conscious realization that his choices are actually shaping reality. Religious Existentialists, aware of this ominous impending dread and the fact that human reason is impotent and unreliable, turn to God, seeking guidance through revelation. Nevertheless, man is always held responsible for his actions, nor can he escape responsibility by refusing to act at all, for he is always caught in engagement with life, always in involvement with momentous decisions. - W. Sahakian

The HATrack will be a flexible democratic eclectic religion. Winsome progressive concepts from popular conventional religions, such as the "Golden Rule" (to unto others as you would have them do unto you), from studies of psychology and sociology, and from everyday written comments on our changing lives will be edited from them and voted into the "secondary philosophies" category. Outdated empty 無 mu anti-New seasick mind-blanketing/ blanking concepts and mome "leaders" will be picked out, negated and voted out. Empty pro-mind-tyranny louts go home or be knouted and routed.

Why the deaths, inhumanity, injustice and mirth-dearth from the birth of humanity until today? Dios (God) is locked in a titanic fight against satan and has not been able to prevent the blight. God is shown in the natural, good, and positive thinking; satan is shown in the unnatural, bad, and negative thinking. All happy has resulted from God, oll misery insult from satan. Good has come when on-God's-side New Worlders have stood up to and fought past satan's Old Worlders. Or... perhaps God allowed World Wars One and Two to happen so that when we came to the 1990s and were ready to begin eschewing the Old S-Q and to move onto the track toward the U.S.W., we would be scared into reforming Old and forcing New throughout the universe to avoid a repeat of history or worse. Let's not let the tremendous sacrifices to have been in vain. HAT is now THE main exigency.

By preaching for victory of crazy wild-n-wacky HATrack precious lead-forth lay-down-hate Republican positive thinking over lazy mild-n-tacky backtrack malicious slam-the-door crush-HAT Democrat negative thinking, HATrackers will empower towering precious God to lead us to final victory over the cowering incubus satan and to our sought

complete HAT Weltmacht. We are winning the battle of "communism"-elimination. Soon it will be won. WHAT is next? Yes, hon, mon, yes.

America, Americanism and New Worldism are in great demand around the world. The HAT "H" flag will world-wide be unfurled. The thousands of Tiananmen Square martyrs were killed craving New Worldism. Their rotten June 4th gangster murderers will never be forgiven, their victims never forgotten. They soon will no longer be abandoned. Their dopplegangers who nightly come and stand at every door implore and inspire us in our fight against the Patsy misfits and their ilk who did it and continue to do it. They all still want New Americanism, but their desires have been and continue to be stifled by their and our Old-rut scuts.

We real tasteful tactful attacking American New World Party members will awaken the U.S.A. from its wending slumber and will use the Four Keys that will open the door to the New World Dream: 1) invite countries to join the U.S.A. as new states, 2) allow free immigration into the U.S.A., 3) institute the Citizens Shareholder Dividend, 4) work to have Spanish or any one language adopted as the international language.

The following passage is from Edward Corsi's book, "In The Shadow of Liberty." It speaks of the types of people everywhere around the globe who want to escape Old, and hope to find "an earthly paradise" in America:

The swelling caravan of immigration reached its record volume in 1907 when the incoming tide brought to America 1,285,349 aliens. I was one of them, a ten year old boy.

My first impressions of the new world will always remain etched in my memory, particularly that hazy October morning when I first saw Ellis Island. The steamer Florida, fourteen days out of Naples, filled to capacity with sixteen hundred natives of Italy, had weathered one of the worst storms in our captain's memory; and glad we were, both children and grown-ups, to leave the open sea and come at last through the Narrows into the Bay.

My mother, my stepfather, my brother Giuseppe, and my two sisters, Liberta and Helveta, all of us together, happy that we had come through the storm safely, clustered on the foredeck for fear of separation and looked with wonder on this miraculous land of our dreams.

Giuseppe and I held tightly to stepfather's hands, while Liberta and Helveta clung to mother. Passengers all about us were crowding against the rail. Jabbered conversation, sharp cries, laughs and cheers - a steadily rising din filled the air. Mothers and fathers lifted up the babies so that they too could see, off to the left, the Statue of Liberty.

I looked at that statue with a sense of bewilderment, half doubting its reality. Looming shadowy through the mist, it brought silence to the decks of the Florida. This symbol of America - this enormous expression of what we had all been taught was the inner meaning of this new country we were coming to - inspired awe in the hopeful immigrants. Many older persons among us, burdened with a thousand memories of what they were leaving behind, had been openly weeping ever since we entered the narrower waters on our final approach toward the unknown. Now somehow steadied, I suppose, by the concreteness of the symbol of America's freedom, they dried their tears...

So they had shuffled aboard at the Italian port, forsaking the arduous security of their villages among the vineyards, leaving behind the friends of their youth, of their maturity, or their old age. The young accepted the challenge with the daring of youth; the old pressed forward without a hope of return. But both saw in the future, through their shadowy dreams, what they believed was an earthly paradise. They did not weigh the price of their coming against the benefits of the new world. They were convinced, long before they left Italy, that America had enough and more for all who wished to come. It was only a question of being desired by the strong and wealthy country, of being worthy to be admitted...

Our little vessel coasted into the slip at Ellis Island. The passengers began to move. We moved with them and as we stepped from the gangplank to the land, all silent and subdued, I knew that my parents were thinking as I was, "What is next?"

Per Greg Mankiw comment, the economy is governed by two kinds of laws: the laws of supply and demand, and the laws enacted by governments ...seems...

...economic determinism - everything in orderly society is decided by economics, creation, allocation and distribution of wealth - be the centerpiece of New Worldism (expanded Real Republicanism and Americanism)

From Keynes' "General Theory":

The ideas of economists and political philosophers, both when they are right and when they are wrong, are more powerful than is commonly understood. Indeed the world is ruled by little else. Practical men, who believe themselves to be quite exempt from any intellectual influences, are usually the slaves of some defunct economists.

Madmen in authority, who hear voices in the air, are distilling their frenzy from some academic scribbler of a few years back.

We all will muzz, un-puzzle, and understand fundamental economics.

We'll recognize monopoly profit (government-complicit generated/ tolerated) as soul of oll social evil (we install, be own worst enemy). As erstwhile monopoly is rung down, New World-rise will be brung up 'round cube. Whilst "high culture" laughter Old Worlder comics fool around perusing/writing their "good looking" books zat noisily glorify suffering/ bleeding of poisoned humankind and fill up nooks in bookcases/minds, we "low uncultured rubes" New Worlders be reading/ pleading economics, mining gold.

We'll write books recognizing stench, but THAT proffer ways to stanch mold-flow, not zat unremittingly passively (and thereby) sadomasochistically stand around, fawn over and praise Old-grow. Millions o'er world have been wanting an' waiting for a certain something New to do an' to stand for, that fills zat grinding inner emptiness; pipes an' drums of dawn. IT IS TIME TO AWAKEN, LIGHT WICK, CUT TO QUICK, ERECT LIMP WRISTS INTO CLINCHED FISTS, SAY WORDS THAT MUST BE SPOKEN AND TAKE RIGHTFUL ACTIONS THAT MUST BE TAKEN.

The surgeon does not just clean around the tumor, she removes the shapeless form. As Nietzsche sprach, "walkers in darkness we were, in light we shall walk henceforth;" hence tumors will be cut out and hung up to dry, not cried over and glorified; we the Majority look to diamond sky. We be pugnacious and activist, against sacralize-complacency Status Quo and zat fat oll-swallow cult of self-doubt-and-woe.

The reeking, comfort-seeking S-Q-vault/norm protectors highly value maintenance of society where is faux pas to New-mention, and offend embarrass or assault another's tender (walled-over) sensibilities. Oll dem odd mollycoddled/spoiled Patsy elitists will not moil/lead, too much invested in their Old-founded gleet-covered taxpayer-funded/ now unbounded mansion of arrogance and opulence.

If dem few S-Q bunch is eschewed, axed, defeated, or even scrutinized by us, they're stripped of their emperor's frocks, shorn of curly worry locks, an' be reduced to hunched scampering bleating yammering shaken wildly dressed li'l munchkins - an' they don't like THAT. But, they will 1) join us/U.S., 2) follow us/U.S., or 3) allow us/U.S. (get out of way) ...or let dem away-fly to enjoy their self-delight misery islands, inhabited only by 5% gangsters who love to rip off, and 25% Oldsters who love being ripped off.

Let dem use an' abuse each other, but LEAVE THE REST OF US ALONE, WE NEED JOBS NOT SNOBS, WE WANT HAPPY ESCHEW MISERY, WE WANT TO BE SHAREHOLDERS NOT RUED/RULED BY SLAVEHOLDERS.

The Old 30% minority misery-creating-and-craving Patsies - upon final victory of New World Party over their sadism (and our masochism?) - will still have say but will no longer get way, and if they really need self-abuse (if dem choose to U.S.A.-stay) then can just refuse their Citizens' Shareholder Dividend (expanded FairTax rebate).

I've often mused: why not Dems on one side of the country, and Reps on the other? One slice descending seasick weepers, the other ascending mutineering reapers. We came to America to escape stifling smothering impoverishing enslaving paternalism, but now zat is engulfing us. We once fought to overthrow slavery and unite nation; now must we disunite nation for same notion? How about a combined Texas and Mexico? First, write an iron-clad (needs 75% vote to amend) libertarian constitution that forbids income tax, taxes on investment such as on dividends, decriminalizes then taxes mafia-empowering "vices" such as marijuana sale/use, and entrusts most power to the states not the feds... i.e. a constitution close to the word and spirit of the original U.S.A. Constitution (far from the currently practiced distorted abomination). Then invite New Worlders to move in, then declare independence/foundation as New Nation. Then enjoin other countries/states to join, fitting HAT on Earth then universe.

Or, how about this less drastic but still fantastic option: move the U.S.A. capitol/ capital from D.C. to Kansas/ Texas, from Beltway alt welter to Freeway neu welt, and turn White House into monument/museum with all/oll the others. Berlin is a new capital after all. After rout and relocation, heeded invoked in-voted empowered New World Party savant schopfer coup-doers won't need to take a shower every hour.

A favorite propaganda reprobation of the popular-will-disdaining Patsy footdraggers is, "populism in practice is almost always a negative." To them, anything that simplifies - that takes government away from the cravers of complexity and returns it in the forms of increased wealth and freedom to the governed - is a dreaded crime. It means they will no longer be able to write their columns pooh-pooing and passing negative judgment on positive, New aspects of WHAT is to come. Currently in-demand old worldish good-'ol-boy writers and critics throughout the land will soon be unemployed - out of the way and enjoying their Citizens Shareholder Dividend guaranteed income.

Populism, popular sentiment, widespread popular support for progress and fairness, never has been nor never will be assailable. Populism - the militant sentient spur of want - brought the downfall of monarchy and the aristocracy, the enthrall of America, the recall of slavery, the election of women's suffrage, the destruction of Nazism, and the abjuration of communism.

The Communist regime in the East could endure and grow due to the enthusiastic support from an enormous number of Western intellectuals who (feeling the kinship!) refused to see communism's crimes, and when they no longer could do so, they tried to justify these crimes. The problem persists: In our Eastern countries, communism has suffered a complete ideological defeat; it is zero and less than zero. And yet Western intellectuals still look at it with considerable interest and empathy, and this is

precisely what makes it so immensely difficult for the West to withstand the East. - Solzhenitsyn

Communism was a mass movement but it never was a populist majority movement. Votes held in the Soviet Union just after the 1917 Bolshevik revolution actually repudiated communism. COMMUNISM IS A FRONT FOR GANGSTERISM. Secret ballots were quickly discontinued by the budding USSR mafia princes. So too was Nazism a temporary and deadly victory of nationalist racist laughing Old Worlders and mafia over true populism. In both cases the New Worlder Schopfers simply could not muster the fortitude to put forward a propaganda and action counteroffensive to muffle the laughers' leaders' piffle.

Thomas Jefferson, Andrew Jackson, Abraham Lincoln, Teddy Roosevelt, Franklin Roosevelt, Harry Truman, John Kennedy, Jimmy Carter, and Ronald Reagan were all populists and populist-types who fought against the rotten S-Q anti-New Old Patsies. We will not let the listless worshippers of Prince satan again transmogrify the precious label of "true American populist" that each New World Party candidate and New World Party unit will rightfully have applied to it.

I can therefore gladly admit that falsificationists like myself much prefer an attempt to solve an interesting problem by a bold conjecture, even (and especially) if it soon turns out to be false, to any recital of a sequence of irrelevant truisms ... in finding that our conjecture is false we shall have learnt much about the truth and shall have got nearer the truth. - Karl Popper

When traveling I usually have to move furniture around and rearrange the hotel room, setting up a reading table and bunching several lamps together so I have enough light to be able to read. My hunch: hotel rooms are sub-lit designed for the half-wit dead-in-bed by-TV-imprisoned prone-to-supine-on-telephone-drone-minion millions, and to encourage and expect the rest of us guests to be thusly conditioned.

Then I read. For me to consider a book "interesting, good, and useful" and worth carefully looking through, at a bare minimum it will have these five qualities: 1) a froward-forward foreword/ introduction with a presentation of the most important points to be discussed next in the text; 2) throughout the book main points will be emphatically and precisely made, simple not complex; 3) tender sensibilities of opposing opinion groups will be assaulted - a show of the author's doggedness and conviction, and indication of the sincerity level of his claim to his doggerelless dogma; 4) a back pages chapter that brings everything together and shows how, in the author's vision, the problems discussed in the book can be nixed/ fixed.

Thirsting for the juicy stuff I always look past the body's relative fluff and turn to the back pages of a book first. The more action-oriented and zizzy (and less protraction-oriented and iffy) the back pages the more attentively I read the body pages; 5) above all, the book will have some unctio-function thought-provokin' musty-dusty trail-blazin' rough edges and dirty stuff... like when the bassist of a folk-rock group occasionally purposely shocks with an unexpected lousy-rousy "wondering all about me" rock-boat wrong note. The marble-smooth dirt-free perfect-context texts are good and useful for how-to-pave-roads reference... but they are not foundation-cast, not garage band interestin', and, alas, I never dig into 'em.

Guy, you should not be shy, you should not hold back from expressing your frank opinions in writing. Be rank in your writings, rankle in your speeches, but be dank in your conversations. When in doubt, write - go ahead and spin out your yarn. The "real you" is in your large thoughtful penned lucubrations not in your lots o' awful thoughtless spoken bosh. Why can we say darn Old Worlders are those who say the "real you" only comes through in rough off-the-cuff verbal communication? - gosh, simple, because in discussions you drop your defense, show weakness, expose imperfections, and make plenty of peccadillos, oll of which is so satisfying to the for-misery-praying wimps.

By inhibiting ourselves, by not letting your at-first-knotted scrawlings but then finally fully-thought-through thoughts come through, you do not truly communicate with the Majority 25% New Worlders + 45% SIMS. BY REPRESSING OURSELVES THE SPIRITUAL FULFILLMENT BOUNDARY IS NEVER BROACHED, NOR ADDRESSED, NOR APPROACHED. Have fun with it, let yourself go, don't within-hold. Fool around a bit - that way you can sneak up through the bushes on people. You can say what's really on your mind and then say "tush tush, jest jokin'!" Remember, you want to appeal only to a few schopfers who in turn will convince a majority percentage of at least fifty-one. Try saying your really rad pasquinades in a rambunctious unctuous jesting sort of way first - then when you turn serious you can either win over those "bads" who tip your way or slip by those Old nerds who jeremiad. Sloppy? "What would be deficiencies in a work of scholarship may be assets in a work of prophecy" - Fritz Stern.

I say, write what you want to say, without delay say what you want to convey. In boxing parlance YOUR WRITINGS ARE YOUR RIDDLING BODY SHOTS. In military terminology THEY ARE YOUR DEMULSIFYING ARTILLERY SHELLINGS. Bombs away. Those "genius" "good-looking" "Status Quo above all"-preaching realpolitik-apologist parasitic critics who assail and stickle you for the supposedly "offensive, sappy, and icky" thoughts and words you pick up gun and happen to pen openly self-brand themselves as crappy Minority brigand Blindganger wimps and Gangsters - for they are focusing in on the 10% indirectly constructive negative-sounding seemingly sophomoric edicts you have written only for effect. Those who truly understand you and want to highlight positive and help - the New

Worlders - hone in on and pay attention to your 90% directly constructive eruptions.

It seems to me that philosophical investigation, as far as I have experience of it, starts from that curious and unsatisfactory state of mind in which one feels complete certainty without being able to say what one is certain of. The process that results from prolonged attention is just like that of watching a object approaching through a thick fog ... It seems to me that those who object to analysis would wish us to be content with the initial dark blur.

- Bertrand Russell

I dare you to use a wide-ranging rhyming vocabulary to express yourself better and learn nuevo (new) words at the same time. Find an unabridged dictionary and try to use every unusual word there. Then go to German... or make words up, someone has to do it. Have no fear. You'll do well not to dwell on Sprachgefühl. You'll not be abusing español or English-speak. You'll be writing poetry. One reason poetry and songs can be so lovely and dear is that the need to rhyme forces use of unusual unexpected words that conjure up her nature, allure, ardor, glamour girl, splendor, lure, sure, obscure, gossamer, couture, demure, amour, flowers, boudoir, capture, secure, texture, uncover, succor, fur, geniture, enter, spur, purrrr, r-r-r-r-r, pure pleasure, fervor, blur, rapture, roar, mixture, conjure, slumber, culture, tour... future picture? Poetaster -> practice -> poet - not trying is the only disaster. I don't know about the others but toward your poetry try I will not be a laugher.

Girl, why endlessly lurch and search to discover and uncover truth when you and your lover can simply invent and implement truth? The uninhibited written verse of your fine imbue-New HATrack book of love philosophical novel will reverberate through your and my brain, redound 'round the world, and disperse throughout the universe. New Worlders want to talk with you but mostly they want to read your writings. When reading I can cut through the mundane crap; when listening (to bob-and-weave, I'm okay you're okay) I'm trapped. My 80-20 rule of thumb - I can believe (or make some use of) 80% of what I read, but only 20% of wot I hear, almost oll dumb, makes mind numb. The day before meeting someone I want to get inside his/her mind by reading it, her philosophical novel, or at least some of her other non-legalese writings. In advance I want to know what/wut she thinks so the session will be succinct not song-and-dance. By such preliminary study I can answer my questions "Is she a straight shooter, or an idea muter? Did looking at her book let me know what constitutes this dudette's core, or did it bore? Should I spend time with Nancy or politely ignore 'er?" Your written lore must give sustenance, succuss, cut to the gut, and do the cast. Nancy, you must be a sultry lusty

mythoclast.

Many of his [Lincoln's] expressions, such as "Government of the people, by the people, and for the people," are fixed permanently in the imaginations of most Americans. In the same way, the novelists or short story writers who draw verbal pictures of whole worlds not only entertain you, they give you images that you automatically compare to your own world. And when the scenes you imagine seem more desirable than the reality around you, then you begin to alter the world you live in.

None of us wants to be saddled with the world as it is if we can pursue a better one that now exists only in the imagination. When the images of "better" that move us to action come from writers, as they often do, it is fair to say that writers become agents of change in the real world. Even when that does not happen, our "internal worlds" have been changed nonetheless just by the addition of images we did not have before. In the words of Northrop Frye, "Imagination gives us both a better and a worse world than the one we usually live with, and demands that we keep looking steadily at them both." One reason for learning to write better, then, is to help create the kind of world - presumably a "better" one - that you will want to live in. - Booth & Gregory's "Rhetoric"

I wrote the following passage some time ago, but I withheld it from inclusion here until now. I somehow felt disjunction, compunction, sensed inner conflict... Schrecklichkeit. I now confront my previous frank opinions and hope to explain myself and allow a transparent glimpse into my inner mental torment by spreading a portion out true before you...

Let us face reality and the facts... What I am about to discuss is not "politically correct," but it is apodictically correct... and thereby a direct affront to the noisy neoliberal non-liberal fashionable arrivistes. And, although these are honest, heart-felt feelings, arrived at through personal observation, commentary and book-study, I sincerely hope to be proven wrong with info have somehow overlooked.

Some things are best left to the arena of the written word, and I will never verbally discuss what follows, no matter how hard the loud, proud emotional conventional specious wimps prod. Verbally I will only simply say, "I believe as did Thomas Jefferson, 'all men [AND WOMEN] are created equal.' Let us come together, mix, and nix/fix problems. Let's not shout, self-doubt and bring about more problems."

Thank God for free speech, THAT allows today's "nonsense" to become tomorrow's "common sense" and provides progress to a wealthy healthy peaceful happy New World. I will gladly say the plain and proven, however

"unfashionable," and fall to the sidelines... so that others may quietly benefit, stride forward, and lead us to it - the New World. Lest induce imbroglia, please do listen to me carefully to the end of this section and please do not jump to a hasty conclusion. Here goes...

At one time those in the South who struggled to free the slaves were shouted down and ostracized... they even cowed the great mind-tyranny battler Jefferson into silence. But in the end he showed the way and won with his actions. Today we honor the pre-Civil War southern states' anti-slavery freedom fighters, and today all in the South realize that WHAT they stood for was simply... common sense and progress... (I contend am in concordance with the basis of the CED ("Chatoyant Eschatologic Doctrine")... that the said "a la bonne heure" (some mistakenly refer to the shiny prism with another word ("Aryan")) "self-transforming" race streak is designed, destined, and designated to flower supreme).

Let's all have a brave end-oll dialog on race. We must allow ourselves to object consciously to hard-to-face pungent burning realities in our lives. But the subconscious can never turn away from averring obvious truisms. Let's be honest with ourselves, if only for just this one time: CAN IT BE TRUTHFULLY DENIED THAT THOSE WITH THE STREAK ARE THE MOUNTAINS AND FOUNTAINS FROM WHICH THE CULTURE OF MODERN CONCEPTUALIZING AND SELF-TRANSFORMING SOCIETY HAS BUBBLED? He above has sent us CED loud and clear message, why have so many been ignorant and resisted the ascendant CHAToyant for their descendents? He above has surveyed the realm of creation, all nations, juxtaposed the tribes just as do judges compare athletes on the Olympic ice... and has planted the ylem. The places and faces where the amaranths have taken seed are the chorasuses whom we must look to, sing along with, and cleave to.

I ASK YOU: from where have and will the most beautiful and enduring of all flowers of free thought and soaring spirit bloomed?
THE ANSWER here will ANGER MANY.

Are we all chiefs and none indians? Are we all orators and none musketeers? When the athlete has won the Olympic gold medal, do we deny he/she has won it, do we refuse their well-deserved step-up? Do we refute her make-up?

Throughout the seventy-seven generations since the fall of the Roman Empire, while 94.5% of the others around the world have striven so strenuously to "look good," "go along to get along," "be fashionable," "be polite," "dance to the drums," be conformist, lazy, superstitious, and just plain be rubes and fool around in general (including enjoying complaining about misery but recoiling in horror from remedy)... WHAT were the certain few New fanatic of the "barbaric impolite northern" Hermann-German-led tribes doin'?

While most were knurled into laziness like those of the rest of the world, the far-off-corner best were busy with themselves, going against the grain, swimming against the flow, refusing to fully bow, being

bad-looking orphans holed up with their books, gun-pens, free-flowing ideas, music, and inventions... They ignored and sloughed off labels of "crazy," "asocial," "cads" pasted on them by the swarms of the "that's not how we've always done it," "don't you dare hurt my nor anybody's tender sensibilities" laughing staring lazy ones.

The "crazies" marched to God's and sun, they refused to dance to Satan's drums. (The MTM song has one word wrong: lazy not crazy.) Those who already have the self-transformant cHAToyant streak are not better, they are just more fortunate. And, they will flower miles high. But, if they do not strive to pollinate they will lower, putrefy and alienate.

Look around the U.S.A. of today and take note of oll the breathtaking rot and sloth. View the cult of sook tribalism - the oll-consuming corrupt bankrupt dictatorial hypocritical Patsy satraps and their sadomasochistic, "law"- (mafiaism) enforcing Myrmidons. New has been forbidden. Look at the concerned cult of "live for today, concentrate on looking/ feeling good" non-hardihood zat pervades an' is amplified an' reflected back by the slack off-track anti-New-idea mass media. Observe the glorification of pateralization by "superiors" and being paternalized by "inferiors." We need New-go, not super-egos an' mo' da' blues.

And if you care/dare - in the best self-transforming quality of the streak - to climb to the peak of craziness and: 1) doubt the deeply rooted tentacles of the nationalist paternalist racist S-Q,

2) face reality and speak the truth - "Old is odd, cry, depravation an' Satan; New is God, divine, and salvation" (an' U.S.A. nation-embiggen)... then you will find rejection... feel an' suffer ostracism. Am myself one of the doubting schlemiels who has felt and revealed the concealed misery-inflicting buck-sucking yuk-yukking encircling arm of Old World harm. We have, friend, in essence a festering malignant omnipresent soon-to-world-consume growth and spread of the cult of schmaltzy, schmutzy indolence.

The New streak will flower... but it will not dominate, rather will have power, mate, and procreate. We will not repeat oll the disasters of the apartheid-creed nineteenth-century colonial masters from France, England and the Netherlands. The flowering will be achieved through doubting without self-doubting, love, mixing, an' sharing. Just as the cream rises to the top of just-drawn milk, so too will the inspiring culture-creating streak rise to the top of the consciousness an' sink deep into the soul in all our mixed Old-nix new-pie sons an' daughters of days on the horizon.

The bad-good, Old-New choice/dare lain before us for tomorrow is:

1) will the "pure" self-transforming streak and culture be overwhelmed and destroyed by the insidious involuntary imperious imported self-feeding almost imperceptible meek-mind-tyranny contamination sat swirls 'round ankles like dry ice vapor today... and in coming years plans

to burn us U.S. New Worlder makebates at the stake...?

2) or will the mirth-streak be voluntarily and aggressively physically infused into and highlighted in all who tread on Earth?

Bad Choice #1 be our forever keeping sodden, sad, an' dead Miss American Pie in the freezer and admiring her until she finally inevitably safely securely goes rotten.

Good Choice #2 be our saying "goodbye" to missing, removing, thawing, magnifying, sharing, New Pie - ate/consumed.

Positive Newpies will not only rise to the top... but, they will lead us to the borderless one-language mixed happy New World - a prospective world the negative "pure-poor," by their very nature, abhor.

After the New tune, those few remaining poor-bred "aryan" streak-monopolists will be zack-attacked, swung off the track, an' hung in the freezer on the sidewalk to shiver an' watch the mornin' procession stride by. Pie in the sky and on ground is living redound; pie in the white freezer an' black limousine just unseen stands around.

If it is any consolation to those who see it differently, after we have mixed, if it makes you feel better, you may go ahead and say, "no, it is from our tribe's streak that the New World has arisen."

I will be more inclined to believe you if you and yours join in the trek down the Better Way track in the early morn... why not start toward New right now? You a coward? Or would you after oll rather lazily safely securely sit back slack an' cowed an' Old-fashionably bitch and attack the work the self-transformers will be doing during the tough early-ferly "crazy," culture-creating days?

Tittle-tattle is cheap, 'tis somethin' you anti-New 45~50% blue weepy Old guys have always been hypnotized by. Say whatever you want to say after what must be done has been done. In the end, we'll smile to your face... but (when cogitating you the true racists) we'll turn 'round an' laugh all over the place.

... But... oh, I recently ruminated real reality... alas... I've become a mythoclast. Now I know. My great struggle has become the debunkin' of the notion THAT New worldishness is dependent upon racial and national makeup... Now look up and outward not down and inward, toward corner not in-there... "laugh all over the place" has been transformed into "form and spread the nur true New mixed master race throughout space." ChaToyAnt-fixed.

THE LOUT HITLER WOULD HAVE BACKED DOWN AND BEEN PUSHED OUT IF CONFRONTED BY AN EQUALLY AGGRESSIVE AND LOUD KRAUT NEW WORLDER LEADER. Everyone knew his thoughts, he detailed almost everything in his "Mein Kampf" treatise. He convinced the noisy satan-worship Minority Gangsters and wimps to follow him and then bullied into power. He succeeded because the German

nation did not have a strong democratic tradition. He won because of those same decadent emotions zat cause many to slow down and carefully view the bloody scene of an automobile accident.

FORESEEN NEW WORLDISM, NEWZISM, IS THE OPPOSITE OF OBSCENE NAZISM. HATISM IS REVERSE NAZISM. THAT is, it is the reversal of goals and outcomes. Miscegenate, don't exterminate. But... we stand instructed... I eruct:

I ASK YOU, ARE THE STYLES AND TECHNIQUES THAT MOVE THE SUN AND THE SOULS OF THE MASSES TO REMAIN THE PURVIEW OF THE VILE EVIL ONES?

Hat last fall fast in mornin' insomnolent libertarian RealRep orator/ leader/ Schaffner New USA nation concatenate all continents plangent redemptive adornment/ hatchment effective febrile style but CONTRARY CONTENT (miscegenate not exterminate)

I ANSWER... I always run forward and keep my eyes straight toward the road ahead... never even peek at the accident scene. I swear it is not yet too late to replace hate with HAT, wrong with love's sweet song.

Is New Worldism nihilism? It is, in the sense of the words of Thomas Jefferson's Declaration of Independence:

"... whenever any government becomes destructive of these ends, it is the right of the people to alter or abolish it, and to institute a new government..."

Since in the sense New Worldism cherishes and embellishes the true freedom-promotion of the Declaration and the United States of America's Constitution - HAT is the New Americanism the Founders had in mind. We will push into the background the highfalutin low flying corporate jet travel-loving non-American government apostate guys who have discredited and chosen to forego the American Spirit in oll but their meaningless perorations, and who have instead embraced special interest monopoly profit and worship of super self-ego.

Down wut ruttet route do the boozey black limousines of the oll-knowing Paternalist elitist conventional dull S-Q-protect politicians choose to "lead" us? Are they "leading" us to more and more rust, decay, poverty, and violence in our inner cities? Are they "leading" us to domestic rampant anti-rap backlash against reverse discrimination and black people - led by a "love it or leave it" white supremacist movement? Are they "leading" us to a world dominated by an emperor-worshipping country whose demure overlord shareholders look to indenture all and shatter those few HATters who refuse to abjure New and suck air through clattering

teeth in fear? Are they "leading" us to ecocide? Are they "leading" us to nuclear Armageddon? Are they "leading" us to economic depression? You can pick any one or all of these scenarios. They are misleading us in the spirit of "don't look bad" = protect the Status Quo = protect king/slave paternalism = protect aristocrat special interest monopoly profit = follow the Old World road to oblivion and be damned with future generations. An epigram spoken by Ayn Rand:

Politically, statism breeds a swarm of "little Caesars," who are motivated by power-lust. Culturally, statism breeds still lower a species: a swarm of "little Neros," who sing odes to depravity while the lives of their forced audiences go up in smoke.

The Old Worlders + Monopolists = Patsies obsessed with paternalizing and being paternalized, know New Worldism holds the answers to all social problems and therefore they will do everything they can to help their 無 mu-love satan blanket it and cordon off HAT - such as trying to mis-label it "fascist." We must always bear in mind: THOSE BRAVE SOULS BEING OSTRACIZED, THOSE BEING BLACKLISTED, THOSE BEING LAUGHED AT, THOSE BEING LABELED "CRAZY" - THEY HAVE ALWAYS BEEN AND WILL ALWAYS BE HUMANKIND'S PROGRESS-WINNERS (their tormentors are the misfit "progress-whiners"). IF THE SPINNING CORNER FOREFRONT UBERMENSCHEN OF EACH GENERATION ARE NOT VICTIMS OF GENOCIDE AND IF THEY RESIST THE WIMPISH URGE TO COMMIT SUICIDE - THEY NEW-GOALS-AND- LEADERSHIP-PROVIDE... in the years gone by typically not in their own time. BUT THIS GENERATION OF NEW WORLDERS WILL LEAD IN THEIR OWN TIME. THE MORE VIOLENTLY THE OLD WORLDERS FIGHT NEW WORLDISM, THE MORE ASSUREDLY THE DOOR WILL BE QUICKLY PULLED AJAR AND THEN AGAPE. Therefore we must not hesitate and be late, rather pick an early fight for right.

We have seized the moral high ground, we have gone on the offensive. The louder and harder the clowns moan and struggle the faster and deeper they will sink down into their own clutching quicksand of end-human-race disgrace, banished and vanished out of sight and mind. But being kind, we'll still sometimes listen to them. When the first New World Party president of the U.S.A. tours a riot-torn L.A. inner city neighborhood he will not stand for criticisms. Instead he will mount the hustings, swing 'round and berate the irate residents for not being new worldish-Great enough, he will seed, not plead:

"YOU SAY YOU WANT ME AND THE FEDERAL GOVERNMENT TO DO MORE FOR YOU? I SAY JOIN THE NEW WORLD PARTY OR AT LEAST VOTE NEW WORLD PARTY CANDIDATES INTO CONGRESS. IF YOUR DISTRICT'S CONGRESSPERSON AND YOUR STATE'S SENATORS ARE NOT NEW WORLDERS YOU CAN POINT YOUR FINGERS AT YOUR MIRRORS. YOU KNOW OUR PROGRAM, DO YOU WANT TO STAY ON THEIR FRIGHTENED SIDE AND CONTINUE TO ENJOY COMPLAINING? OR DO YOU WANT TO

JOIN OUR ENLIGHTENED SIDE AND ACTUALLY, FINALLY SOLVE THE PROBLEMS? DON'T ON-AND-ON BLAME ME, MY ADMINISTRATION, OR THE NEW WORLD PARTY, NOT OUR FAULT... BLAME YOURSELF AND YOUR NEIGHBOR FOR NOT FALLING IN BEHIND THE PIPES AND DRUMS OF DAWN."

Not only will the inner-city downcaster poor converse and join in the march, but so too will the now-well-off soon-to-be-poor self-doubters of the suburbs. The special interest monopolists and their supporting conventional political monolith have had breathing space during these last two decades because wives were able to go to work to keep suburban family life living standards at a comfortable level. But, in the coming years the reserve will be depleted. How will the average family cope and stay out of arrears with rising prices but incomes zat don't rise? The nice, stolid smiles zat now cover forspent feelings will peel away... we'll meet on edges, our striding ranks will swell... we will march forth, H-pennon-unfurl, and bring about and live out the thousand-year New World Gleis.

The dark shroud of Old Worlders' niggling, bitching, complacency, and inactivity keeps the door closed. It is time to hitch up and tighten the britches, trim the hair, lose weight, and do whatever it takes to get select caring New World Party candidates elected. It is time to take the splendiferous steps tHAT the Majority here, in Japan, in Vietnam, in China, in Russia, in Germany, and everywhere out there around the world know must be taken and anxiously expect. The overwrought Patsies have no effective argument wutsoever against New Worlders' thoughts and words and ylem - so silence and violence are golden to them.

We will formulate effective tools and use them regardless of their imperfections, not endlessly debate and refine for ten years and a day 'til they rot - such a delay would cause more and unneeded New-stultifying social and political malaise. No need to try to identify and separate out oll the Old Worlders, we only need be aware they are there, and pattern our plan-charts so to overcome their frantic paternalistic splenetic tendencies. Let the other "pure," splinter ideologies cling to their onerous detailed volumes of ultimately self-defeating failed micro-tenets. Puritan philosophy inevitably ends up as hypocrisy, repression, and fixation. "Idealism without realism is impotent. Realism without idealism is immoral" - Richard Nixon.

Round and round in dizzying circles they spin... the civil rights, gun control, federalism, education, abortion, environment, infrastructure, taxation and a million other debates go on-and-on-and-on. But the trees will not obscure the forest. We will use our heads and fists, not smash them against the wall in anguish. The vanguard New Worlders - riflemen not sword swingers, lovers not fighters, simplifiers not complicators, rulers not rubes - have but a few core and corner opalescent tenets. Our various voluminous writings will be but variations on a few themes. But

we have numerous methods, tools and schemes.

NEW WORLD POLITICS HAPPILY GLADLY MUST AND WILL BE 1) SIMPLICITY, 2) WORLD-ENCOMPASSING IDEOLOGY, 3) ITS PROMOTION, 4) ITS EMPOWERMENT, 5) ITS ALL-NATION EXECUTION. Old World politics is complexity, and deadeningly 1) descend to lowest common denominator popular opinion poll non-ideology Status Quo, 2) culture petrification, 3) wimps "leading" SIMS sheep in a misery-mongering sleepy song of "something is wrong we must do something (except anything THAT will improve anything)," 4) a resulting cult of "live for today" and "look good above all else," 5) oll-enveloping ennui. Ex nihilo nihil fit.

New Worldism is a pragmatic sympathetic populist realist macro mass movement and will not be constrained and trampled by useless and weak Old puritan preachment ideology and freaky loopy special interest groups. Agree. To march for New one need only want to form a borderless one-language New World, and be willing to do WHAT it takes to realize that goal. PULVERIZE OLD. The other various clubs and be vies have righteous micro goals and are welcomed as New Worlder members. But, they will remember when on the hustings they must not slip and divert us from the track to the goal - or the duds will be run across the floor, shown to the door, and hustled back to their Old-track yakity-yak social and gossip clubs. The New World Party will help them achieve their goals - by providing increased wealth, health, freedom, peace and happiness - but our club's work is substance and contention, not details and speculation, New foundation-casting-placing, not interior-decorating.

Result - happiness

Goal - freedom, mainly ability to spend time/mind on what one wishes

Intermediate goal - economic well-being, including institution and growth of CSD

Means to goal:

-focus on RGI above

-overcome/minimize negative elements that divert and/or controvert focus

-overcome/minimize monopoly (anti-competition/transparency) elements

-universal study/understanding of economics

When you stand before the Vietnam Memorial in Washington D.C., please, with me, vow "these men and women fought for realization and spread of Americanism, let us heap honors upon them." THE 70% MAJORITY CITIZENS IN VIETNAM CRAVED AND TO THIS DATE CRAVE AMERICANISM. In our lack of vision and purpose we killed our young men and women and betrayed our New Worlder brothers and sisters in Vietnam. We were winning, but in wretched capitulation, we reneged, signed away their spirits and futures... and ran with tail planted firmly 'twixt legs. But, we will

sail, return, illuminate the New Worlders here and there, and turn night time into day. Vietnam will soon become New "Lebensraum" of the U.S.A... and 58,000 crying spirits lurking at our doorsteps will smile.

France failed? 1) wrong country - not the U.S.A., 2) lacked modern technology - we have faxes, computers and jet aircraft today, 3) wrong ideology - France was HAT-less, did not have miscegenate-emphasis, rather effete-white-snob insult. The result was stasis then defeat. You say young revolutionaries in Vietnam could not possibly accept and fight to spread New logical ideologies imported from "white" outsiders? Marx certainly seemed to ardor-impart. Then: Gangsters and wimps used Marx to Old-empower. Now: New Worlders and SIMS will use HAT-spark to New-empower and Blindganger-cower. They're smart, they'll New-start. We must learn from history, not be burdened by it. We won't get burned again.

But let us lay the U.S.A.-defeat blame where it lies, not with you and me... but with weak-willed gold-miner-kill ordinary nonvisionary good-looking bell-ringing run-and-hide take-us-for-ride conventional Old boy "leaders," who piddle and write forever about how much "they care" but end up taking us nowhere - and who are end-upped and taken by the still stronger, but soon no longer, dark side:

To most Americans it [1973 Paris Agreement] signaled the end of the war. But the millions in Indochina who had suffered and struggled knew that their freedom was precarious. All too soon, the leaders of North Vietnam showed that the cease-fire was merely a tactic, a way station toward their objective of taking over the whole of Indochina by force. Before the ink was dry on the Paris Agreement they began to dishonor their solemn obligations; in truth, they never gave up the war. - Henry Kissinger

From Ronald Reagan's "An American Life"

A lot has been written about college students and other young people who rebelled against society during the 1960s. But there was another, quieter revolution sweeping across the land during the same decade.

It was a rebellion of ordinary people. A generation of middle-class Americans who had worked hard to make something of their lives was growing mistrustful of a government that took an average of thirty-seven cents of every dollar they earned and still plunged deeper into debt every day.

There was a growing sense of helplessness and frustration across the country over a government that was becoming a separate force of its own, a master of the people, not the other way around.

People were growing resentful of bureaucrats whose first mission

in life seemed to be protecting their own jobs by keeping expensive programs alive long after their usefulness had expired. They were losing respect for politicians who kept voting for open-ended welfare programs riddled with fraud and inefficiency that kept generation after generation of families dependent on the dole. And they were growing mistrustful of the self-appointed intellectual elite back in Washington who claimed to know better than the people of America did how to run their lives, their businesses, and their communities.

There was unrest in the country and it was spreading across the land like a prairie fire.

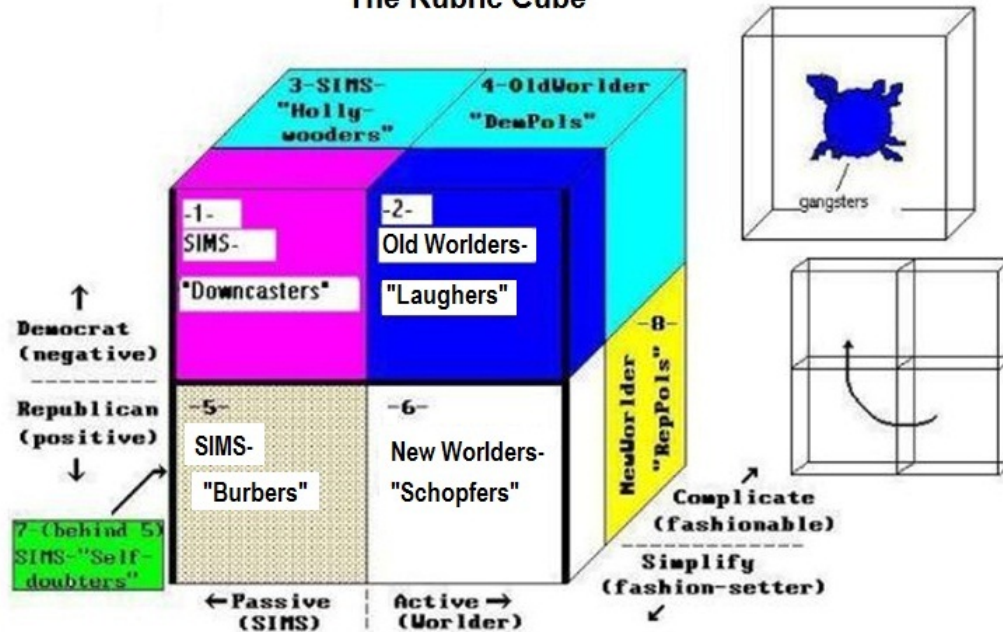

I really am a kneeling bleeding pleading sweating grunting heaving touchy-feely (but not filiopietistic) turning yearning leaf of the Republican Party tree and I still feel it's the most appealing and peerless annealing vehicle, if only a weal-dealing leader with zeal is revealed at the top deelee of the keel. But, that need unheeded... I WILL MOUNT AND SHOUT OUT TO EVERYONE IN THIS PLACE THREE MILLION TIMES, IT DOESN'T MATTER WHO TAKES THE TOP SUN-TRACING PLACE AS LONG AS THE RACE IS WON. While in the military I learned well the use of the universe's most powerful weapon.

New World vision counts. Nett Republican and HAT ideology count. Next generation Earth birth of no-named small faces count. Without doubt, ego fulfillment of familiar "tried and true" good-ole gamers cannot Old-surmount.

I ASK YOU, can New vision come out from insiders-conformed-and-conditioned?

In an opportunity society, the President leads citizens, themselves an integral part of the problem-solving process, sharing with them a vision of the future to which all subscribe and contribute to creating. Theodore Roosevelt's description of the Presidency as a "bully pulpit" was clearly aimed at an opportunity-society vision of America. Alexis de Toqueville's description of America focused on our strengths as a culture rather than the power of our government. The great failure of Republican administrations in the past sixteen years has been their failure to understand that running a cheap welfare state cannot be our goal. We must commit ourselves to creating a New vision and a new paradigm of how Americans will live and work. - Newt Gingrich

The Rubric Cube

See FIGURE F-2 "The Rubric Cube." This diagram illustrates the pandemic political philosophy penchants of the populace. All people of the world fit into one of eight spaces as shown:

- 1-SIMS- Democrat- passive-simplifiers "Downcasters"
- 2-Old Worlder-Democrat- active- simplifiers "Laughers"
- 3-SIMS- Democrat- passive-complicators "Hollywooders"
- 4-Old Worlder-Democrat- active- complicators "DemPols"
- 5-SIMS- Republican-passive-simplifiers "Burbers"
- 6-New Worlder-Republican-active- simplifiers "Schopfers"
- 7-SIMS- Republican-passive-complicators "Self-doubters"
- 8-New Worlder-Republican-active- complicators "RepPols"

The sub-terr-ament Monopolists are just... sort of... in there... in a cavorting apterygial shapeless form where the eight blocks meet at the center of the cube. A few blue goo is cube glue... a lot aught chalk blot is world rot.

Within each of the eight dies of the Rubric Cube lies another Rubric Cube-Cube (RCC) which further refines and defines personal inclination and behavior. However, those at the center of each RCC are not Monopolists, but rather are "conformed and socially acceptable." The most repulsive "crazy" "unreasonable" and laughable to Old Worlders, Monopolists, and "respectable society" in general but at the same time the most culture-creating and progress-winning, are the far-off-corner Schopfer-Schopfers. As George Bernard Shaw said, "The reasonable man tries to adapt himself to the world, the unreasonable one persists in trying to adapt the world to himself. Therefore all progress depends on

the unreasonable man."

How do people know which of the eight dies of the Rubric Cube and their RCC's they occupy? You know simply by thinking it through and deciding in your own mind.

Democrats are negative and bad and Old because they subconsciously hold the paternalistic view "outsiders, inferiors and anti-socials must be managed and conformed by insiders and superiors." They then intuitively indirectly and directly support monopolistic big government and all forms of paternalism, monopoly and waste - with the derelict result of epidemic misery and Patsies' enjoyment and profit from it.

DEMOCRATS SAY "THERE ARE NO BAD GUYS AND NO GOOD GUYS" AND "I'M OKAY-YOU'RE OKAY"... BECAUSE IN THEIR HEARTS THEY KNOW - THEY ARE THE BAD GUYS. Republicans are positive and good and New because they hold directly opposite views. Republicans work for and go for the glory, Democrats are irked by it and shirk from HAT. There are some old worldish out of place in the New World Party and there are some new worldish out of place in the Old World Party.

I ANSWER, the mechanism for New-surmounting-Old will be: The #6 vanguard first class New World culture-creating Schopfers will write unabashedly and bashingly, and speak brashly and abrasively providing world-embracing New vision and direction, allowing the #8 second class "RepPols," the Republican politicians, to strengthen and become more bold but still maintain their vote-getting by-comparison good looks. #6 & #8 New Worlders will then coalesce alliance of #5 & #7 SIMS-Republicans. Winning the #7 sighing, not-yet-crying "Self-doubters" is critical for these are the swing voters who have allowed the good-looking bad-doing lying Democrats to dominate in recent years and do an Old World of wrong to you. Don't doubt yourself pal and gal.

The momentous congealment of #5 & #7 SIMSReps with #6 & #8 New Worlders will be an almost imperceptible accomplishment. Then, soon after the down-looking King and Queen too have shorn their thorny crowns and the not-like-before now-forlorn Game-playing miss American Pie guys have gone "bye-bye," the Schaffner will fall fast from eight die high, touch down, rebound, rise from out of the blue, squares will be rounded, most #1 & #3 SIMSDems will be snared hall over the world, the round will be squared, and hat last...

...the DesiderHATum will coast on the New World HATrack to the COAST...

It seems them #1 & #3 SIMSDems are negatively inclined and subliminally ring the Rhymney bells of misery. Therefore deception, invention, reverse psychology, said SCARE methodology activity, trickery, and some other things a priori by sublime Schopfers and subtle Schaffner will be needed before final inception. If the old worldish ones subconsciously think New Worldism will result in more misery - then they will tend to go along. In effect chiming Schopfers and rhyming Schaffner have to continually remind the Downcasters and Hollywooders that "HAT happiness really is misery, HAPPINESS IS MISERY." If you crave misery, you're going

to be miserable if you're happy.

The mind of man is incapable of discovering truth through reason, since truth is found only in paradox. From the vantage point of God, truth is clearly seen as rational, but from the midst of subjectivity in which man finds himself, truth appears contradictory, a paradox... truth is not around us, it is in us.
- Sahakian

The primary enemy throughout will be the #2 "Laughers" who force dominance of schmutzy "look good do bad" lowest common denominator demon culture on the rest of us, and allow nesting and prevalence of the miss-Pie-protecting #4 "DemPols" - the Democrat politicians. These Laughers and DemPols plus the Monopolists are the 30% Patsies who hand-in-hand contrive and connive to continue to press on the land an ever-increasingly wimpish anti-New Neanderthal/ Asian mind, bland, can't-do, "I'm okay-you too (but only if you rave the misery blues song)," zen-mu mundo on the 70% long-suffering now-weak next-week-strong Majority SIMS and New Worlders... we the Majority who will clinch fists, just say "no," dig a grave for misery blues, say "can do," do it, and thus be freed... and are ready to go and mutiny.

You wimps, don't fret, don't forget, the New Worlders and SIMS mutineers will be merciful. They will give the Old Worlders quarter - one full quarter to be exact. NOW THAT YOU KNOW THE HAT RUBRIC, THOSE WHO OPPOSE NEW WORLD SOLDIER POSE ARE AUßENSEITER OLD WORLDERS AND DERELICT GANGSTER MURDERERS. Don't you worry it's gonna be hall right. Now I dig them, rid them bland blues. Change is now, all is now. In and out, round about.

It was a European who discovered America, but it was Americans who were the first nation to discover this Earth and man's proper place in it, and man's potential for happiness, and the world which is man's to win. - Ayn Rand

The first of the duties that are at this time imposed upon those who direct our affairs is to educate democracy, to reawaken, if possible, its religious beliefs; to purify its morals; to mold its actions; to substitute a knowledge of statecraft for its inexperience, and an awareness of its true interest for its blind instincts, to adapt its government to time and place, and to modify it according to men and to conditions. A new science of politics is needed for a new world. - Alexis de Tocqueville

In the half century following the Revolution what remained of the traditional social hierarchy virtually collapsed, and in thousands of different ways connections that had held people

together for centuries were further strained and severed. The Revolution, complained newly arrived Scotsman Charles Nisbet... had created "a new world... unfortunately composed... of discordant atoms, jumbled together by chance, and tossed by unconstancy in an immense vacuum." He had bumped into a society that "greatly wants a principle of attraction and cohesion." It was not surprising that individuals were flying about, especially since their leaders were saying that it was "the moral duty of the people, at all times, to pursue their own happiness" and that each individual was his own "moral agent" with the right "to dispose of himself, and be his own master in all respects."

People... sensed that everything had changed and could thus readily respond to Washington Irving's Rip Van Winkle, who woke up after several decades to find the society he had known suddenly gone. "We live in a most extraordinary age," declared young Daniel Webster... "events so various and so important that might crowd and distinguish centuries, are, in our times, compressed within the compass of a single life." - Gordon Wood

Let the boring others endorse and be genius at hand-wringing, nuance-definition, circular reason, complication, complaint, gaining weight, and core problem maintaining and profit from it. The New Worlders see past the blind gang of Patsy misfits, exhibit wut is wrong, and show WHAT must be done to fix "it" - oll them social problems of the world. We will shed pounds, be fair, and swirl round the squares. THAT will be our goal, role, action, and satisfaction. We will be the trendy setters of New fashion. We'll tend to Old-upset, no regret, New-implement.

We will forever endure, give encouragement to, and enjoy the dreary laughing criticisms of the sad-song-singing good Old boys and gals who above all fear "appearing different" or "looking bad." But in succumbing to their own tears, during the process, throughout our progress, at the last, in a few years it will be they - judged in the broad sweep of history - who will come to look and be in body, mind, and soul, forever... rugose, rued, old and knurled... and the worst of their fears will be first - the New World.

Hill men and women are the froward people of the dawn who'll awake, step forward, surmount the summit, and say "fie" and "good-bye" to missing, and apportion the American Pie. And then we will coast from it with HAT to the COAST. We will mount up a storm and when the dust settles there'll be found a New World norm to pass on to our New-form, fortunate children. And then we will soar through and explore the boundless dimensions of the galaxies.

The great symphonies and songs were not composed by Frenchmen, Germans,

Russians, Britons, and Americans for parochial enjoyment. Those are
amaranths created by God for chorus by all who tread on Earth, course
through the universe, and dwell in Heaven. Schopfers, sing the verse.
Like heroes to victory, run your course.

Hence All Terr notes

This "Forward" is from a four-book novel I wrote mostly in the early to mid-90's. It's a section of the third book in the series and is presented as written by Dean Smith, the central character of the novel. It's alive, I still occasionally tweak it. All an attempt at irony and satire, hopefully humorous sometimes. I agree with much of the character's Real Republican beliefs. And remember, it's just a novel! The whole thing takes place on a different planet at a different time, though it seems to be taking place on Earth. The secondary character James Telling writes the song American Pie on his death bed. Hence All Terr is unscrambled from Terrence Hall written on Dean's window (Mr. Spaceman Byrds song). There are many quotes from other books I think are most valuable. I had fun writing it! Inspired by and dedicated to never-Earth-birthered Audrey and Becky.
